

NON-INVASIVE LASER BODY SCULPTING MODULE

High Efficiency, Low Risk, Low Rebound, Skin Tightening Effect

NEW

FR06

A newly released product based on in-depth market research, and user feedback, with integration of the latest scientific research technology and the most advanced production process. Bring new highlights to the partner's laser body sculpting equipment and finally benefit consumers who want to shape their bodies easily.

High reliability, long lifetime, high effectiveness in the field of laser body sculpting technology

SPECIFICATIONS

Product	Beam Size (mm ²)	Power Output (W)	Wavelength (nm)
FR06	80 X 40	50	1060

FEATURES

- Focuslight's patented product.
- Unique optical design, beam spot uniformity > 85%, lipolysis enhancement.
- Compact design, module weights as light as 385 g, easier handling handpiece.
- A large sapphire coated window cools skin surface faster, better user experience.
- New skin contact probe design, more sensitive detection.

COMPANY INTRODUCTION

Founded in 2007 and headquartered in Xi'an, China, Focuslight Technologies Inc. is a fast-growing public company (SSE Star Market: 688167) that develops and manufactures high power diode lasers (photon generation), laser optics (photon control), and photonics modules and systems (application solutions) with a focus on automotive, pan-semiconductor, and medical & health application solutions. In 2017, Focuslight successfully acquired LIMO GmbH, and completed the brand unification in January 2022. In January 2024, Focuslight acquired SUSS MicroOptics (now as Focuslight Switzerland). Focuslight owns over 400 patents worldwide and is ISO 14001, ISO 45001, ISO 9001, and IATF 16949 certified. Additional information can be found at www.focuslight.com.
