

PROFESSIONAL LASER HAIR REMOVAL ENGINES

Vshiny Series

NEW

Vsilk2 / Vsilk2 Pro Series

- High Peak Power, Short Pulse Width
- Compact Size and Light Weight

- Higher Effective Energy
- High Beam Quality

SPECIFICATION

- **Vsilk2:** 120 A, 30% duty cycle, peak power up to 1800 W
- **Vsilk2 Pro:** 200 A, 10% duty cycle, peak power up to 3000 W

FEATURES

- **Higher Effective Energy:** more energy and higher repetition rates provide higher hair removal efficiency.
- **High Peak Power, Short Pulse Width:** effectively reduces skin damage and pain during the treatment.
- **Compact Size and Light Weight:** reduces the size and weight of the handpiece, easy for integration.
- **High Beam Quality:** beam shaping with integrated micro-optics , higher energy density, deeper skin penetration.

COMPANY INTRODUCTION

Founded in 2007 and headquartered in Xi'an, China, Focuslight Technologies is a fast-growing company that develops and manufactures high-power diode laser components and materials (photon generation), laser optics (photon control), photonic application modules, assemblies, and sub-systems (photonics application solutions) with a focus on automotive, pan-semiconductor, and medical & health application solutions. In 2017, Focuslight acquired LIMO, one of the leading manufacturers of micro-optics and beam shaping solutions, and a pioneer in groundbreaking photonics production technologies. After the successful IPO at the Shanghai Stock Exchange Star Market (Ticker Symbol: 688167) in December 2021, Focuslight has unified its brand globally in January 2022. Focuslight has over 400 patents worldwide and is ISO 14001, ISO 45001, ISO 9001, and IATF 16949 certified.
