

Focuslight Corporate Overview

© Focuslight Technologies Inc.

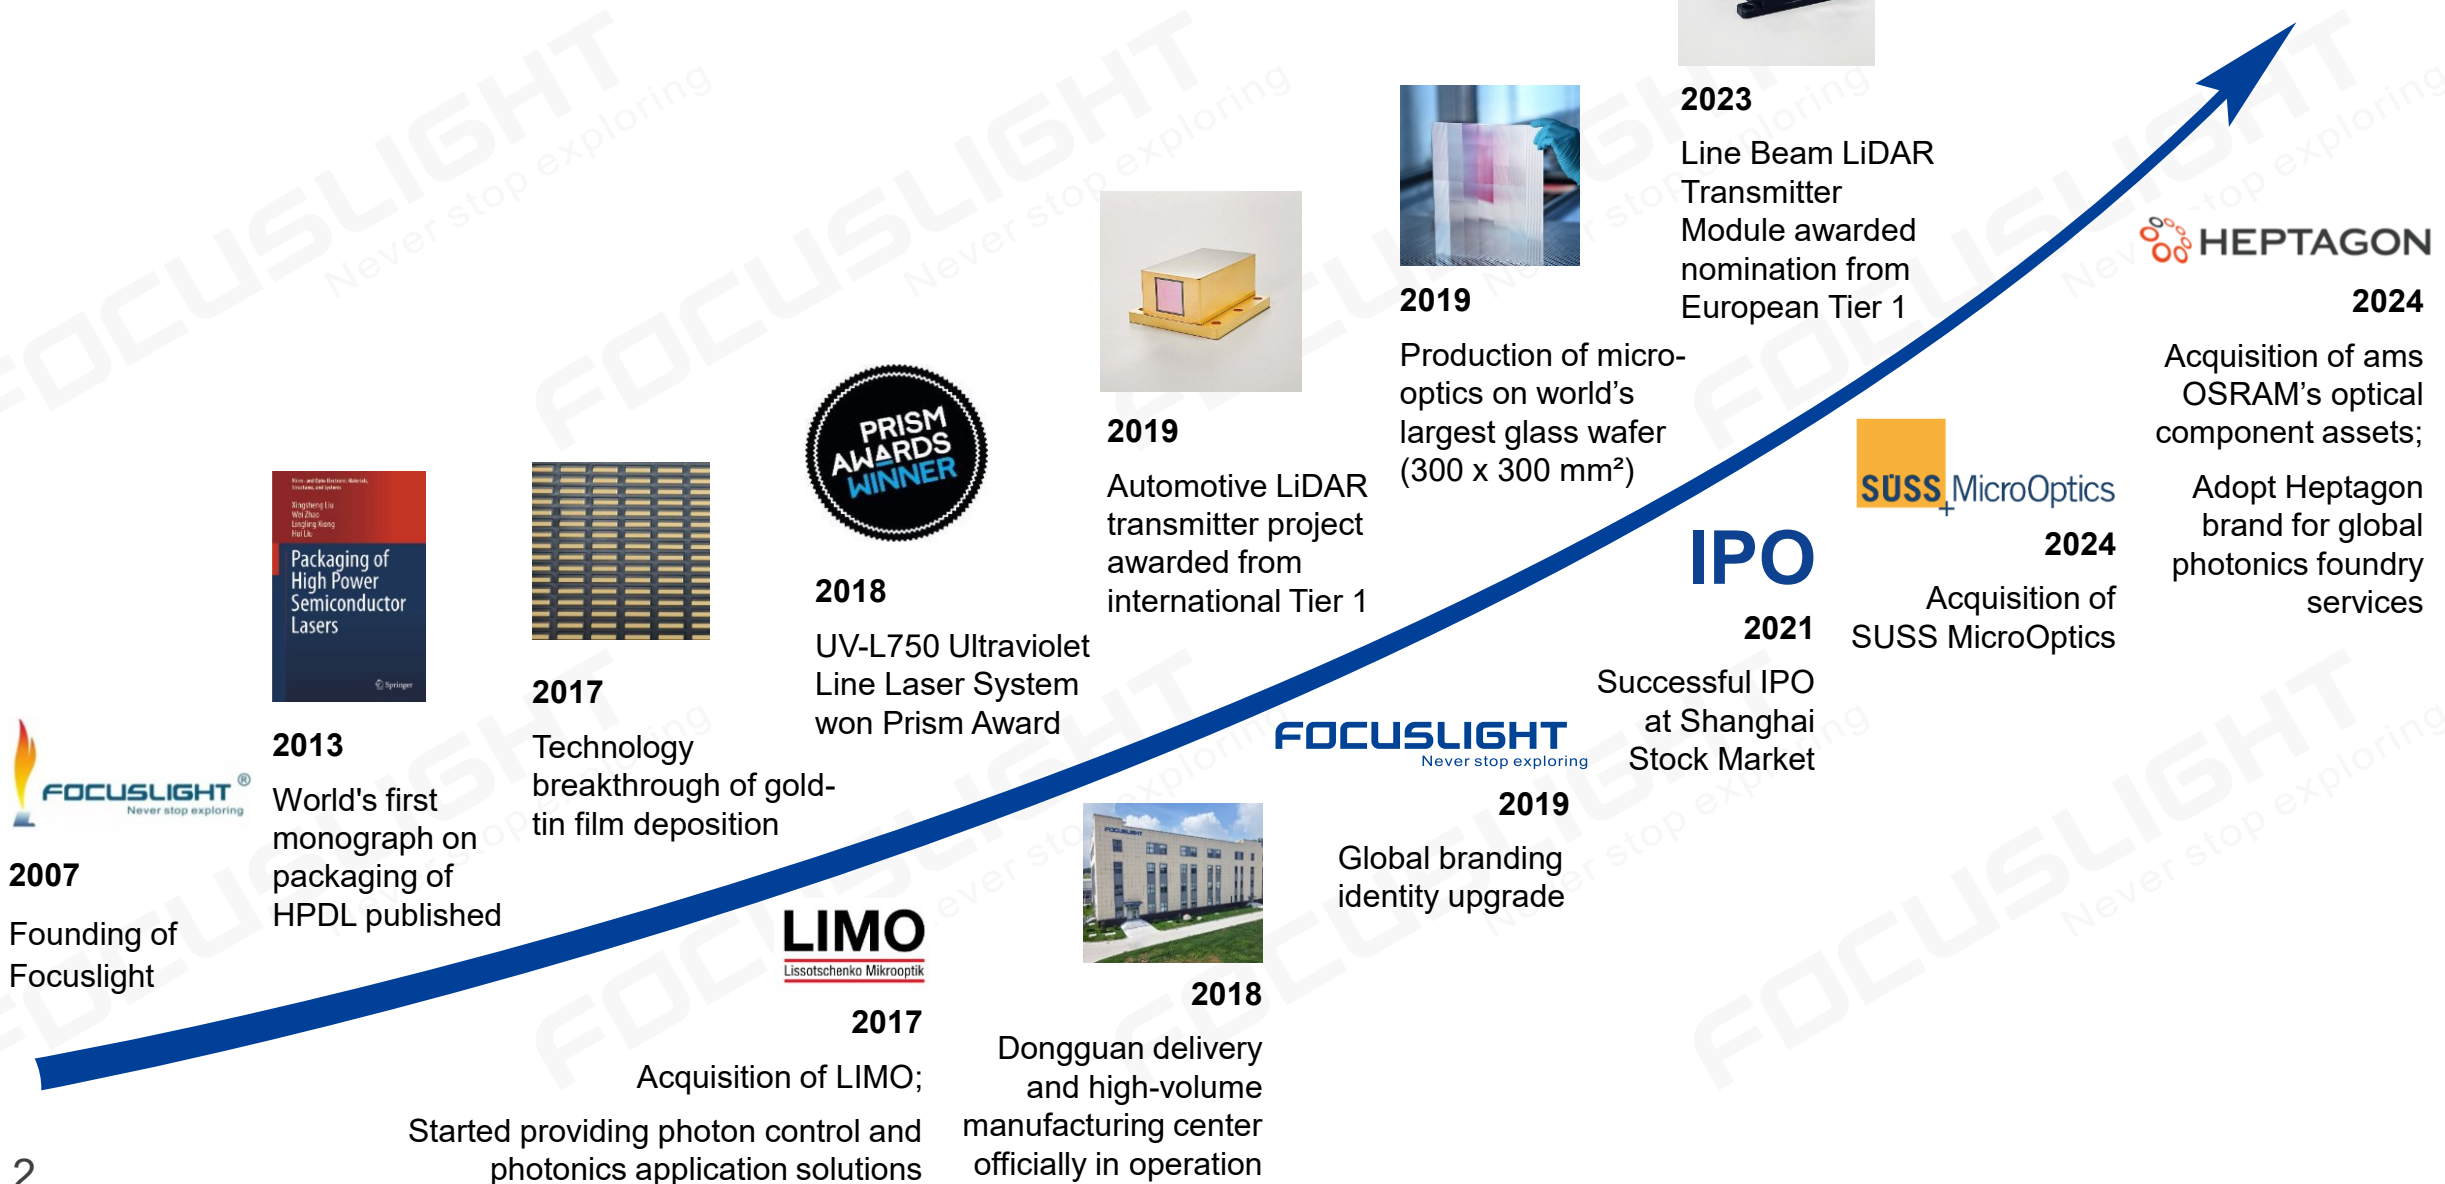

2025-02

Focuslight Overview

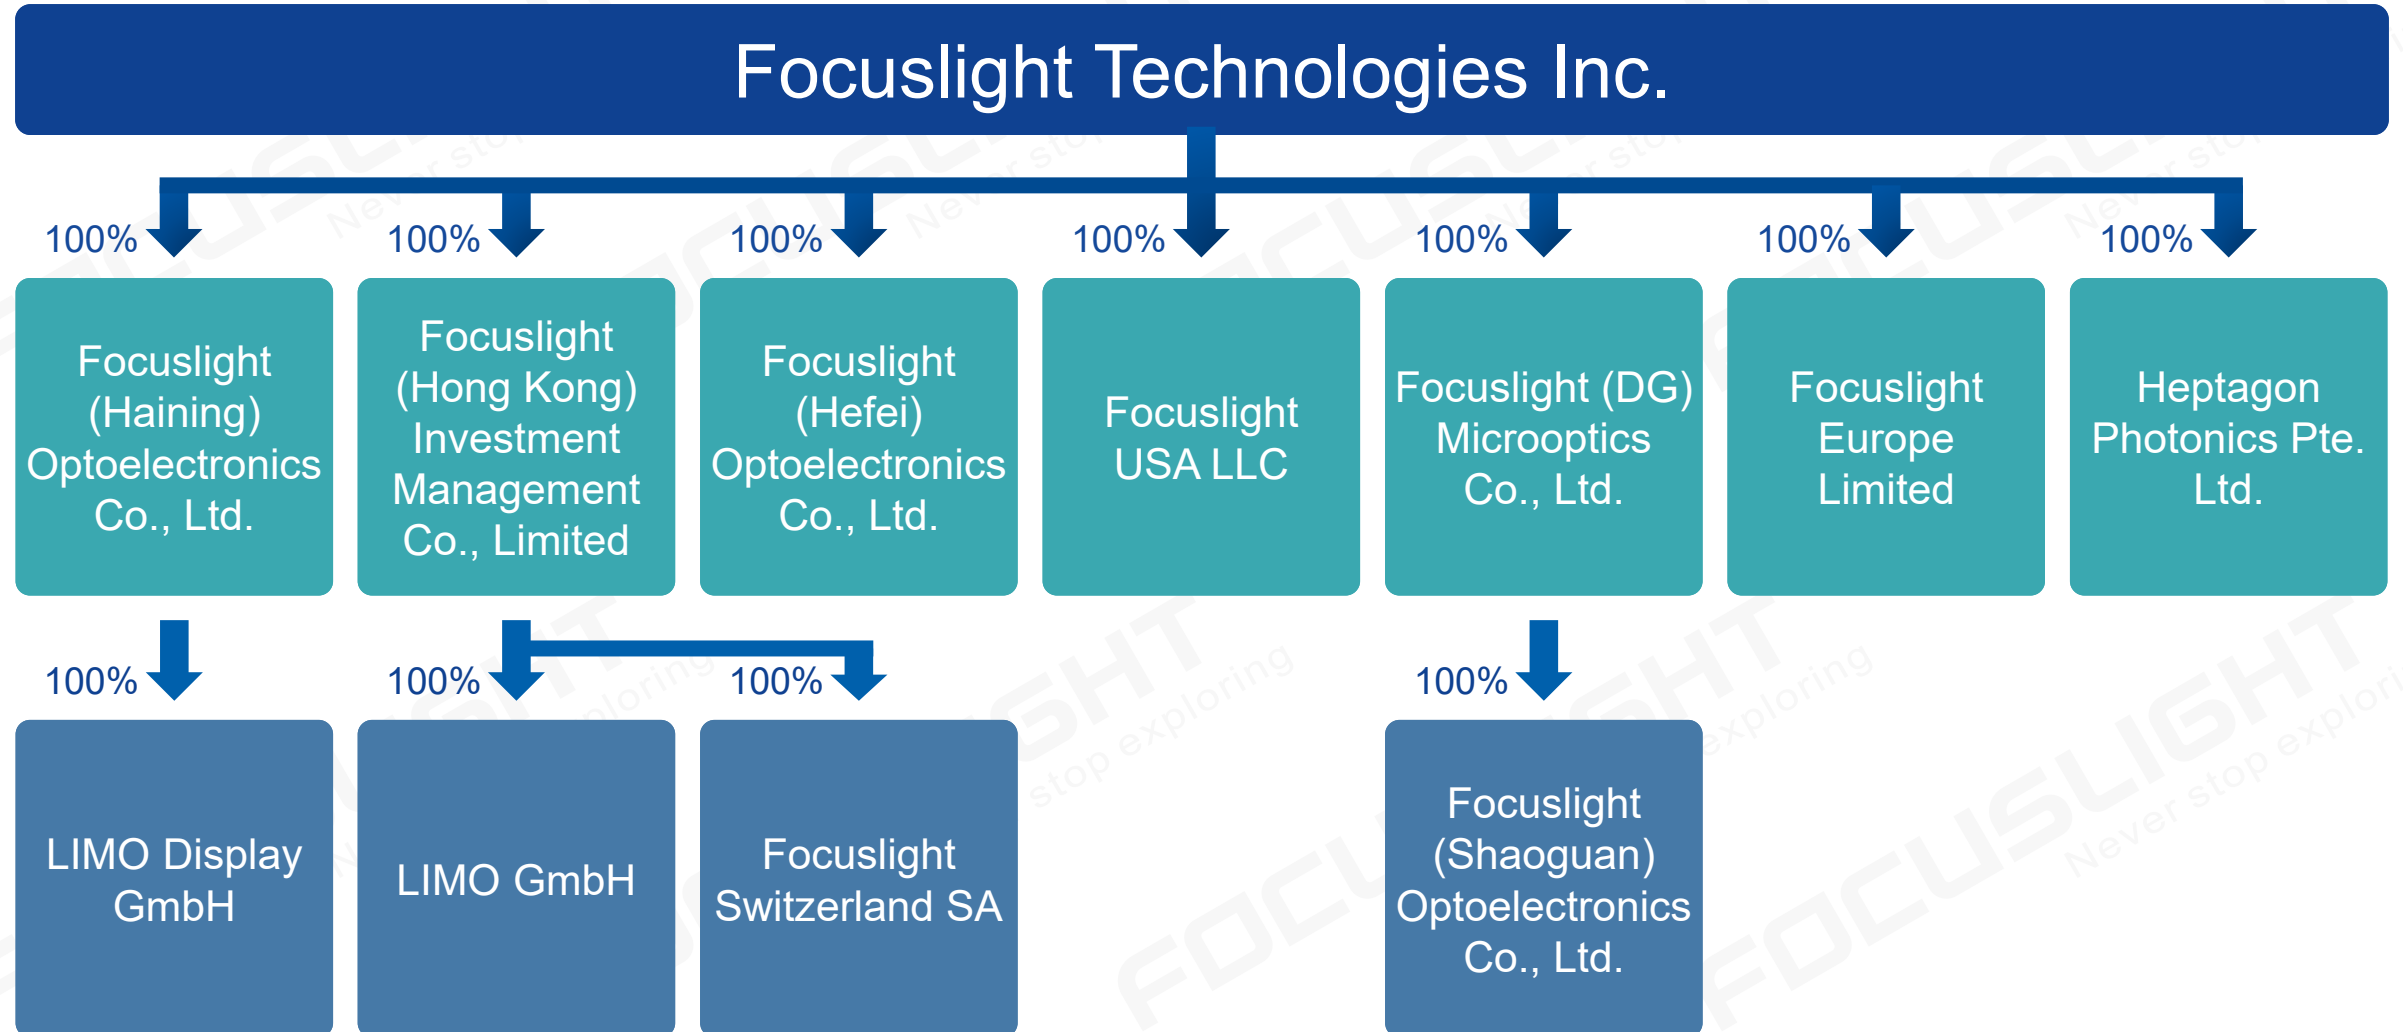

- Founded in 2007 by Dr. Victor X. Liu, headquartered in Xi'an, China.
- A fast-growing company that develops and manufactures:
 - **High-power diode laser components and materials** (Photon Generation)
 - **Laser optics components** (Photon Control)
 - **Photonics module and system solutions** (Application Solutions) focusing on optical communication, automotive, pan-semiconductor, and medical and health applications.
- A **global photonics foundry** offering process development and manufacturing services to the global photonics community.
- Publicly listed in the Shanghai Stock Exchange (Ticker Symbol: 688167).

Milestones

Focuslight Corporate and Subsidiaries

Focuslight Global Operations System

Leverage the strengths and capabilities of each location to **cater to specific customer demands** and **optimize operational efficiency**.

Through centralized decision-making, integrated operations, and lean management, a **high-efficiency, low-cost global operations system** is established.

Value Proposition

Total Solution and Service in Full Value Chain

Industry Leader + Strong Financial Backing + Healthy Stable Company + Invest in the Future

Do what we do best

Offer the best value

Optimize to the extreme

Achieve the best
performance / quality-to-
price ratio

Commitment to Customers

- Lowest cost manufacturing for high volume products
- Willing to take technical risk, but need customer to commit market
- Willing to take investment risk in R&D and capital including M&A for customer on the condition of customer commitment of market share
- Collaboration transparency, fast response, IP protection and long-term partnership

What we don't do

Take high market risk

Being greedy

Being too aggressive

Compete against customers

Vision

FOCUSLIGHT
Never stop exploring

**To unlock the potential
of photonics to
enhance and enrich
people's life**

Mission

FOCUSLIGHT
Never stop exploring

Be the global trusted
photonics solution provider
through innovation,
manufacturing excellence
and fast response

FOCUSLIGHT
Never stop exploring

All Focuslight-designed products and business lines will be marketed globally under the Focuslight brand to streamline operations and create synergies.

 **HEPTAGON**

Foundry services that convert customers' ideas and designs into their own products and solutions will be marketed under the Heptagon brand.

Focuslight Technologies

Products - Diode Laser Components

Under Focuslight Brand

Advanced Materials

- AuSn Pre-Deposited AlN Ceramic Submounts
- AuSn Pre-Deposited CuW Submounts
- Thin Film Metallization Service

Active Devices

- Single Emitter Components
- Single Bar Components
- Micro-Channel Cooled Stacks
- Conduction Cooled Stacks
- Pumped Modules

Fiber Coupled Modules

- Emitter-Based FCM
- Bar-Based FCM

Professional Medical Application Components

- Laser Hair Removal Engines

Products - Laser Optics Components

Under Focuslight Brand

Single Lenses and Linear Lens Arrays

FAC

SAC

SAC array

Focuslight Manufacturing System (FLMS)

Manufacturing Excellence

- Apply the **lean manufacturing practices** to all production lines, including automotive, diode laser and laser optics business
- **Absolute customer focus, zero tolerance of waste, and continuous improvement** philosophy
- **Significantly reduced** cycle time, improved manufacturing efficiency, and lowered RMA yield and manufacturing cost.
- Adopting **automation and advanced production management system**
- **SOP** of the first LiDAR transmitter project with an international automotive tier 1 customer
- IATF 16949 certified and VDA 6.3 audited

Manufacturing Capacity

Advanced Materials

10+ years high-volume manufacturing experiences + self-owned core technologies

DPC production

Etching production

Au plating

Pattern production

Cleaning

AuSn deposition

Laser marking

Dicing

AOI inspection

Advanced Materials Manufacturing Capacity > 2M pcs / month

Manufacturing Capacity

Diode Laser Components

Packaging & Assembling

Optical Assembling

Testing & Measurement

Quality Inspection

Burn-in & Lifetime Test

Diode Laser Manufacturing Capacity > 500K pcs / year
Burn-in Capacity 600K pcs / year

Manufacturing Capacity

Laser Optics Components: Wafer-Level Simultaneous Structuring Processing

Wafer-Level Simultaneous Structuring Processing:
Manufacturing Capacity > 2K wafers / month or > 3.5M pcs lenses / month

Manufacturing Capacity

Laser Optics Components: Photolithography-Reactive-Ion-Etching Processing

Photolithography-Reactive-Ion-Etching Processing:
Manufacturing Capacity > 300 wafers / month

Manufacturing Capacity

Laser Optics Components: Imprinting Processing

Imprinting Processing:
Manufacturing Capacity > 15K wafers / year or > 30M pcs lenses / year

Automation Powered Manufacturing Excellence

Automatic Optical Alignment

Automatic Assembly

Automated Optical Inspection

Laser Optics Production Line

LiDAR Transmitter Production Line

Video Link: <https://www.focuslight.com/news-events/newslst/focuslight-autonotation-powered-manufacturing-excellence/>

Typical Applications

Optical Communication

Diffractive and Refractive Optics

- Focusing / collimating microlens
- Prism integrated microlens arrays
- Microlens arrays
- Silicon refractive microlens arrays

Optical transceivers (TROSA, ROSA, TOSA *)

Optical Switches

Photonic Integrated Circuits (PICs)

Fiber Connectors

* TROSA = Transmit & Receive Optical Sub Assembly, ROSA = Receiver Optical Sub Assembly, TOSA = Transmitter Optical Sub Assembly

Typical Applications

Consumer Electronics

Tailored Diffusor Micro-Optics

Fresnel lens, circular lens array, micro kinoform, irregular MLA for flood illum.

Pattern-Generating Micro-Optics

MLA-based dot projection modules

Binary DOEs for beam fanout; 3D-depth sensor

Imaging and Projection Micro-Optics

Multi-zone 3D-dToF sensors (~proximity sensors)

Eye- / Gesture- and World-Tracking Micro Camera Lenses

Multi-aperture WLO-lens for AR-μLED Display Engines

Typical Applications

Medical and Health

Hair Removal

Body Sculpting

Skin Rejuvenation

Ophthalmology

3D Interoral Scanning

Dermatology

Confocal Microscopy

Endoscopy

Sensing

Laser Surgery

Contract Manufacturing
Services

*Focuslight does not
produce medical or
health equipment*

Typical Applications

Automotive

LiDAR

Driver Monitoring System

Smart Headlight

Projected Lighting

AR HUD

Optical Components

Laser Transmitter /
Illumination Modules

*Focuslight does not
produce LiDAR /
Lighting full system*

Typical Applications

Semiconductor

- Beam homogenization technology powers the illumination system – key optical component in **pan-semiconductor systems**
- > 15 years supply to the major manufacturer of semiconductor lithography tools

- Laser system solutions with high power density and different beam profiles, designed for various **laser-based wafer annealing processes** including IGBT backside annealing and SiC annealing

- Based on 976nm diode laser with adjustable beam output and >95% homogenization in energy distribution
- Ideal for **advanced chip packaging processes**, e.g. laser-assisted bonding

- Off-axis beam shaping technology powers laser surface treatment as well as surface inspection
- Typically used in **solar cell industry**

Typical Applications

Display

Solid-State Laser Lift-Off (LLO) for Flexible Displays

- Several tens of beam shapers (plasma display pixel structuring)
- Several green 100 mm line beam systems (laser lift-off)
- > 600 mm UV line beam production system (laser lift-off)

Next-gen LTPS Solid-state Laser Annealing Process

Mini and Micro LED Processing

- Laser Mass Transfer and Laser Mass Soldering
- Laser Chip Repair

Typical Applications

Industrial

- **AuSn pre-deposited ceramic substrates** – stable and reliable thanks to the high thermal conductivity and suitable thermal expansion coefficient;
- **Fast axis collimators (FAC)** – fundamental and efficient solutions for shaping the beam emitted by the pumping sources;
- **Focusing lenses** – coupling the collimated laser beam precisely into the output fiber;

Sales Network

- Worldwide established distributors
- Direct sales offices in China, Switzerland and US
- Manufacturing site in Xi'an, Dortmund, Dongguan, Haining, Shaoguan, Neuchâtel, and Singapore

Your committed and reliable long-term partner in photonics components and solutions

Diode laser light source leader and beam shaping expert with strong IP position

One-stop-shop provider of micro-optics choosing from five process technologies best matching customer needs

Global photonics foundry that convert customers' ideas and designs into their own products and solutions

Total solution, versatile customization service and field service provider

Strong RDE capability, high volume production capacity and low-cost manufacturing

Financially healthy and strong financial backing from investors for long term growth

THANK YOU
