

Focuslight Corporate Overview

© Focuslight Technologies Inc.

2025-06

Focuslight Overview

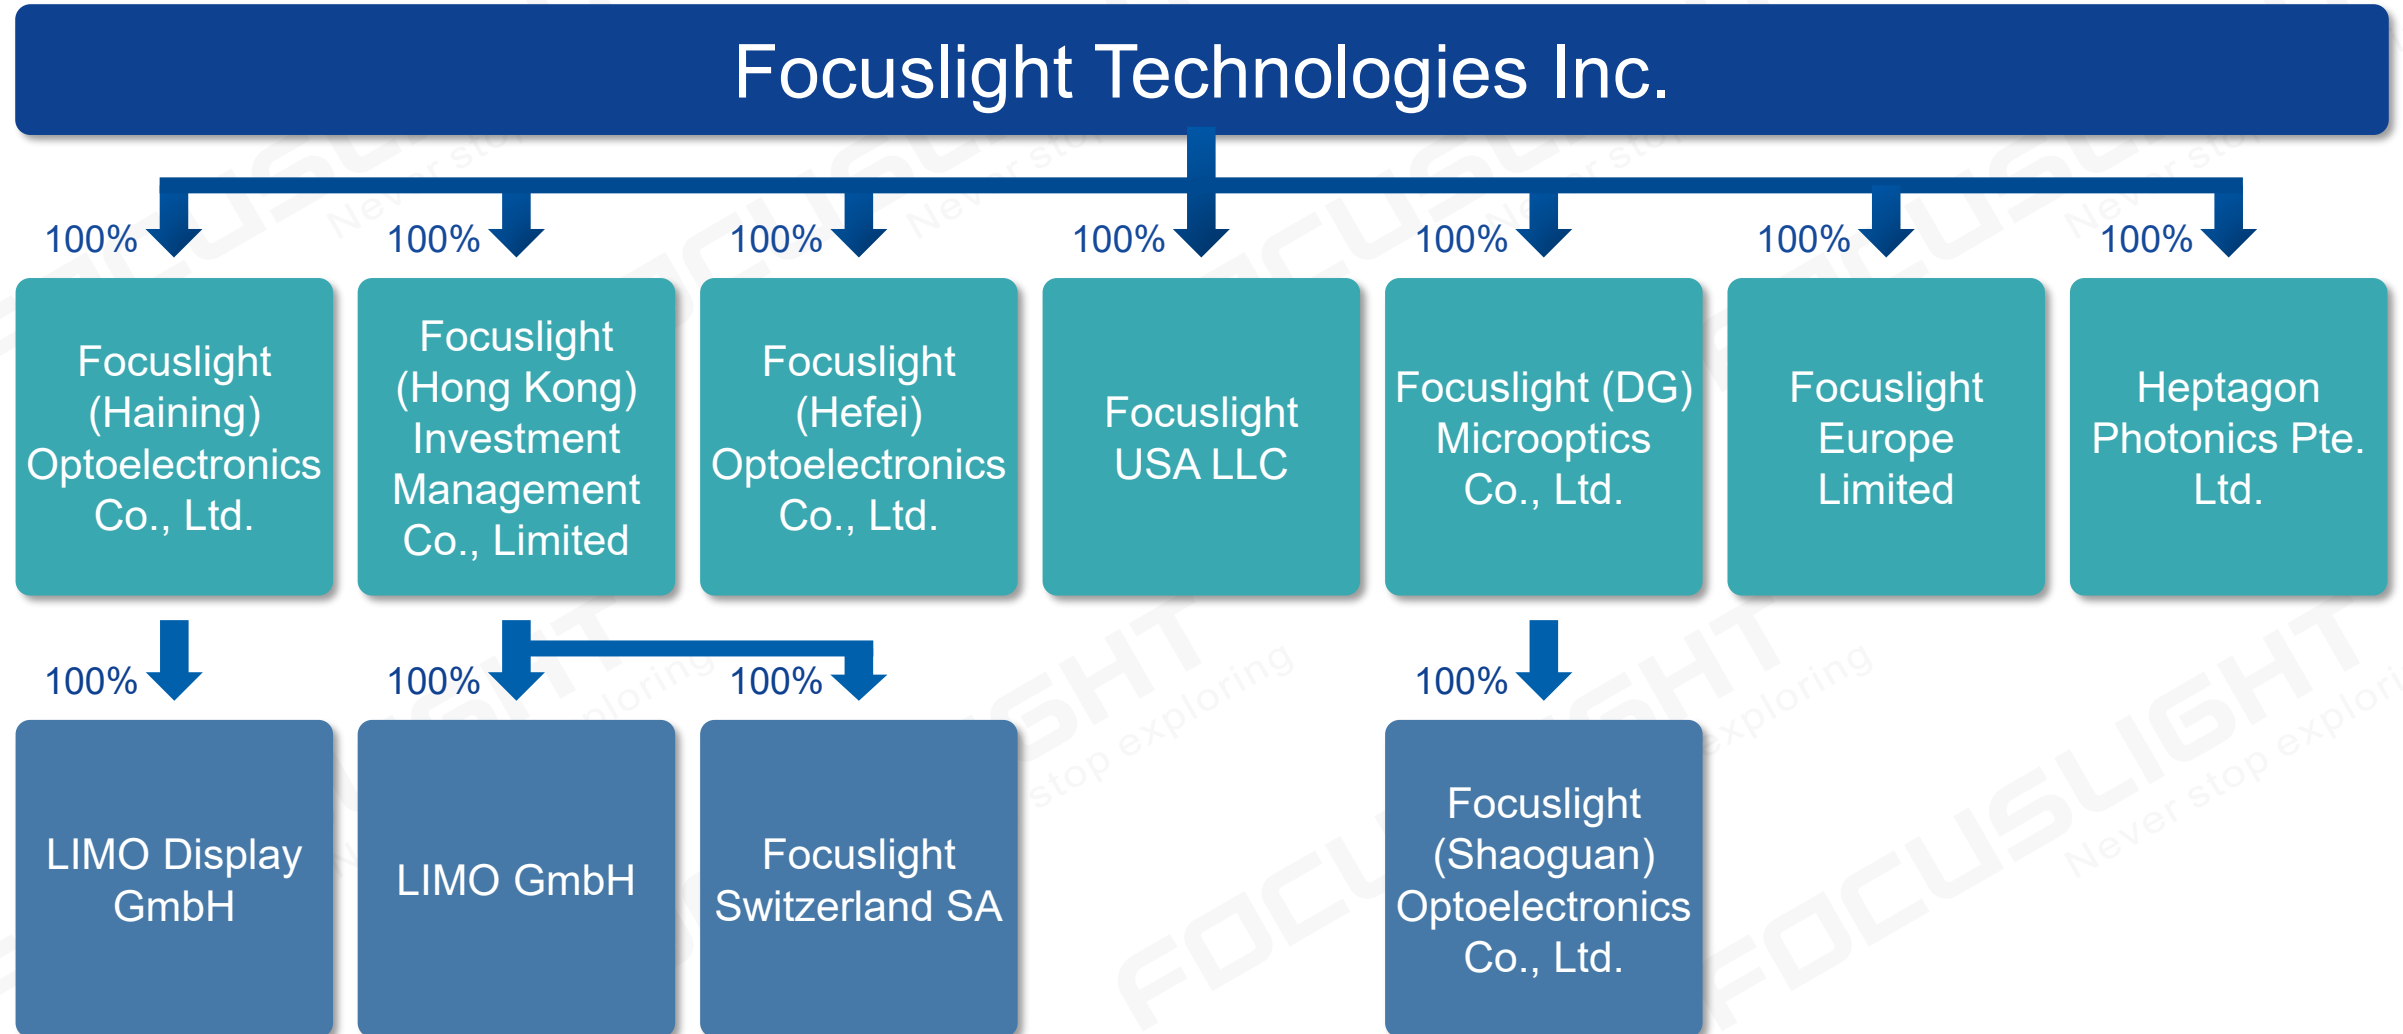

- Founded in 2007 by Dr. Victor X. Liu, headquartered in Xi'an, China.
- A fast-growing company that develops and manufactures:
 - **High-power diode laser components and materials** (Photon Generation)
 - **Laser optics components** (Photon Control)
 - **Photonics module and system solutions** (Application Solutions) focusing on optical communication, consumer electronics, pan-semiconductor, automotive, and medical and health applications.
- A **global photonics foundry** offering process development and manufacturing services to the global photonics community.
- Publicly listed in the Shanghai Stock Exchange (Ticker Symbol: 688167).

Milestones

Focuslight Corporate and Subsidiaries

Focuslight Global Operations System

Leverage the strengths and capabilities of each location to cater to specific customer demands and optimize operational efficiency.

Through centralized decision-making, integrated operations, and lean management, a high-efficiency, low-cost global operations system is established.

Further Expanding Flexibility

- **Strong International Presence:** Focuslight has strong presences in China, Germany, Switzerland, Singapore, and other global regions. We can leverage our existing manufacturing capabilities in these locations to meet customer demand efficiently.
- **Flexibility in Manufacturing:** As demand grows, we are exploring additional manufacturing capacity in Malaysia to complement our global operations. This flexibility allows us to adapt to the evolving needs of customers worldwide.

In a world of evolving market dynamics, we provide the solutions you need to stay ahead—flexible, efficient, and forward-thinking.

	<p>Dr. Xingsheng Liu (Victor) Chairman, CEO</p> <p>Research and management experience in the US, with 100+ publications, 300+ patents, 30+ invited papers internationally</p> <p>Committee Member of SPIE and IEEE</p> <p>  </p>		<p>Dr. Chung-En Zah CTO</p> <p>30+ years of research experience in the US, with 300+ publications, 50+ patents in optoelectronics and telecommunication</p> <p>IEEE Fellow, OSA Fellow, 2x R&D 100 award winner</p> <p>  </p>
	<p>Mr. Sinclair Vass Corporate SVP of International Sales & Business Development</p> <p>35+ years experience in international photonics markets, having held technical, commercial and general management leadership roles at major multinational companies</p> <p>   </p>		<p>Mr. Guowei Zhu (Gavin) Corporate VP of Quality, President of Automotive BU</p> <p>20+ years in international automotive companies, rich experience in IATF QMS and plant operations management by World Class Manufacturing (WCM) & Lean manufacturing</p> <p>  </p>
	<p>Mr. Tan Chee Huo (Michael) Corporate SVP of Business Process and IT</p> <p>25+ years in IT leadership, specializes in digital business transformation, global project management, multicultural team leadership in fast-paced international industries, and strategic decision-making</p> <p>   </p>		<p>Mr. Ye Dai (Robert) Corporate VP of Global Sales</p> <p>Excellent track record in worldwide sales, product line and business unit management leadership roles</p> <p>20+ patents granted</p> <p> </p>
	<p>Ms. Yiping Ye (Alison) Board Director, CFO</p> <p>Over 15 years management experience and multi-field business practices</p> <p>In-depth understanding in LTC, IPD, intercultural cooperation and rich operational experience in market development, project operation and business management</p> <p> </p>		<p>Mr. Qichuan Yu Chief Product/Process Officer</p> <p>Over 25 years of experience in wafer-level optics, optical sensor and camera packaging, SAW/BAW filter R&D, and NPD execution, with a strong focus on mastering, tooling, and wafer-level processes</p> <p>   </p>

Corporate Management Team

Ms. Xuefeng Zhang
(Jennifer)

Board Secretary, Marketing Director

14 years photonics industry international business experience

In-depth understanding and rich experience in sales, marketing and business development

Mr. Hong Wang

Corporate R&D Director

PhD in physics and Master in computer science. 20+ years in quantitative analytics, capital market risk modeling and architecting. Expert in building analytic infrastructure and system. Rich experience in multinational team management.

Mr. Lucas Zhang

Director of Global Operations Centers

20 years of global supply chain management experience at multiple Fortune 500 companies, with strong expertise in supply chain planning and management within the consumer electronics industry

Mr. Jinchao Qu

President of Diode Laser BU,
President of Medical & Health BU

Extensive years of product marketing and sales management experience

Outstanding track record in previous roles as Asia Sales Director and Head of the Application Systems Special Task Force

Mr. Dirk Walter Bogs

President of Laser Optics BU

Over 25 years' experience in ultra-precision tooling, optic manufacturing, engineering & project management, and operational management

Very deep knowledge of technology development and optimization

Mr. Yong Tian (York)

VP of Laser Optics BU

20+ years of operation & R&D management, very deep knowledge with organic optical materials and optical coating technology, published SCI articles and owns patented technologies. Experienced in Lean Manufacturing & Industry 4.0

Mr. Weiyi Gu

President of Pan-Semiconductor Solutions BU

12 years experience in photonics R&D and product management, with rich track records of leaderships in developing and delivering system solutions for pan-semiconductor and industrial applications

Dr. Tobias Senn

Vice President of Strategic Growth Division

15+ years of experience in micro-optical component development for the consumer market. Expert in design for manufacturing and process development, with a strong focus on high-volume production and yield improvement

Mr. Hongyuan Liu (Tom)

President of Global Photonics Foundry BU

20+ years in R&D and operations management, specializing in optical imaging and non-imaging system design, WLO process & integration, and optical component manufacturing. Proven track record in new product development and scaling high-volume production

Industry Leader + Strong Financial Backing + Healthy Stable Company + Invest in the Future

Do what we do best

Offer the best value

Optimize to the extreme

Achieve the best
performance / quality-to-
price ratio

Commitment to Customers

- Lowest cost manufacturing for high volume products
- Willing to take technical risk, but request customer commit market share in return
- Willing to take investment risk in R&D and capital including M&A for customer but request customer commit market share in return
- Collaboration transparency, fast response, IP protection and long-term partnership

What we don't do

Take high market risk

Be greedy

Be too aggressive

Compete against our
customers

Vision

FOCUSLIGHT
Never stop exploring

**To unlock the potential
of photonics to
enhance and enrich
people's life**

Mission

FOCUSLIGHT
Never stop exploring

Be the global trusted
photonics solution provider
through innovation,
manufacturing excellence
and fast response

FOCUSLIGHT
Never stop exploring

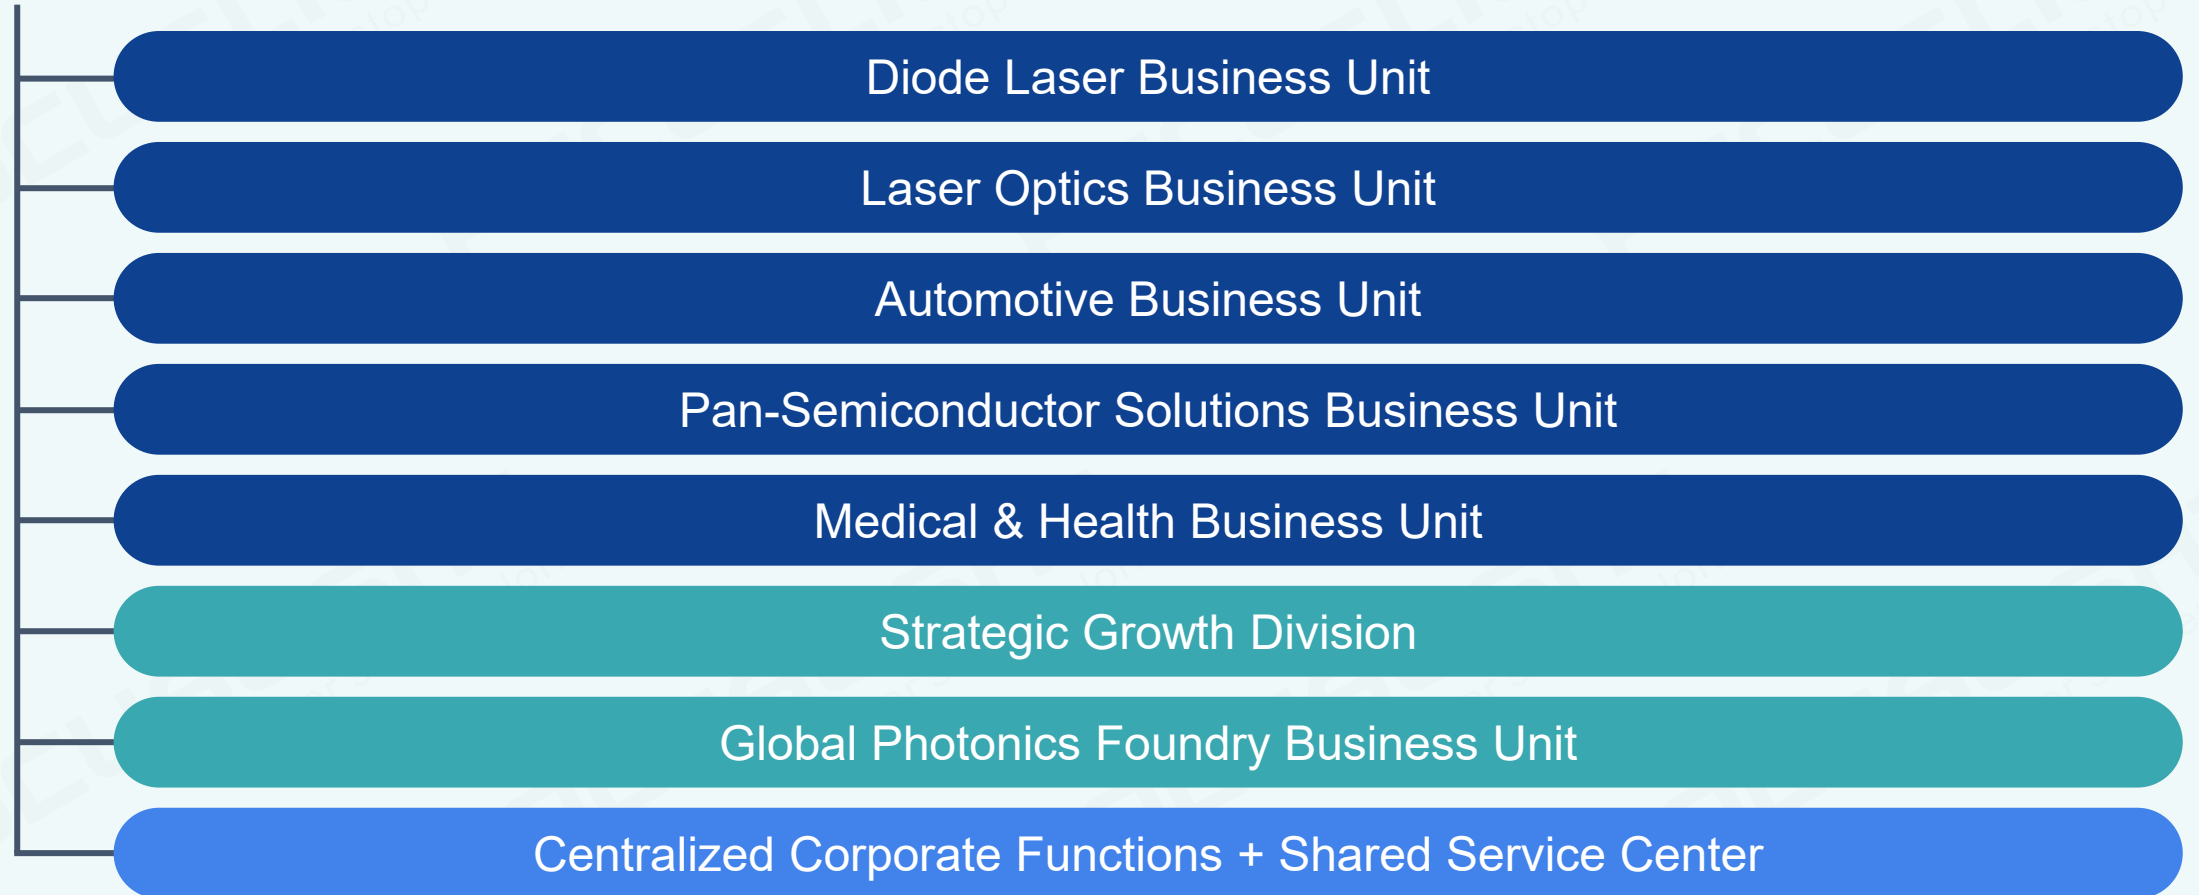

The corporate/parent brand that offers innovation-driving photonics solutions, covering all available businesses except WLO, WLS, WLI, and related fields.

 **HEPTAGON**

A brand focused on business around the technologies of WLO, WLS, WLI, and related fields, ultimately aiming for volume production.

Company Organization

Focuslight Technologies

Products - Diode Laser Components

Under Focuslight Brand

Advanced Materials

- AuSn Pre-Deposited AlN Ceramic Submounts
- AuSn Pre-Deposited CuW Submounts
- Thin Film Metallization Service

Active Devices

- Single Emitter Components
- Single Bar Components
- Micro-Channel Cooled Stacks
- Conduction Cooled Stacks
- Pumped Modules

Fiber Coupled Modules

- Emitter-Based FCM
- Bar-Based FCM

Professional Medical Application Components

- Laser Hair Removal Engines

Products - Laser Optics Components

Under Focuslight Brand

Single Lenses and Linear Lens Arrays

FAC

SAC

SAC array

BTS

Fiber coupler and collimator

Collimating DOE

Area Lens Arrays

Homogenizer and
diffuser

DOE beam splitter,
dot or line generator

Diode Laser Drivers

Global Photonics Foundry Services

Under Heptagon Brand

DFM* Stage

Outcome: Full-fleshed Design for WLO-Technology, Manufacturability and Risk Analysis

*DFM: Design For Manufacturing

Product Validation & Qualification

Outcome: 2nd or xth Gen working samples, Creation of Product Documentation (e.g. delivery req. specifications, drawings, technical datasheets etc.), cost analysis

Mass Production

WLO Components fully compliant according to Product Requirements and Test Specs.

Specification Requirements

(ERS, RFI, sharing)

Design Feasibility Study

Outcome: Concept & prelim. Design (fulfilling requirements, dimensions, est. cost),

Design Verification / POC Stage

Outcome: 1st Gen Working Samples manufactured, testing data results for e.g. yield analysis

Ramp-Up

Wafer Level Optics (WLO)

Work with Us – From Concept to Mass Production

Core Competence

Diode Laser

Eutectic Bonding

Significantly enhances thermal conductivity, reducing thermal stress, and thus improving the products' performance and lifetime

Thermal Stress Control

Lowers and homogenizes the thermal stress, and improve the device performance

Thermal Management

Finite Element Thermal Analysis and Design

Effectively improves the ability of heat dissipation to ensure a higher output power

Interface Materials and Surface Engineering

Greatly improves wettability and bonding strength of packaging materials, enhancing long-term reliability

Core Competence

Beam Shaping – *The Right Photon at the Right Place and Time!*

Micro Optics Design and Simulation

Acyindrical free-form micro-optics / arrays / diffusers /
DOE splitters / beam shaping systems

Homogenization

Uniform and homogeneous illumination in any desired shape

Beam Transformation

Asymmetrical → Symmetrical beam

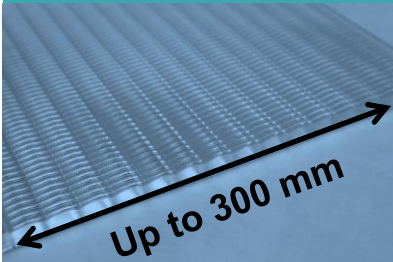

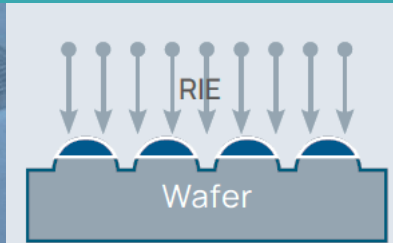

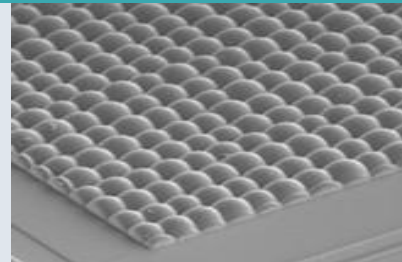

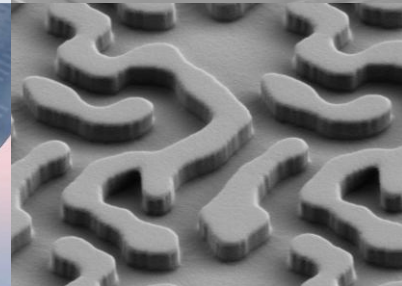

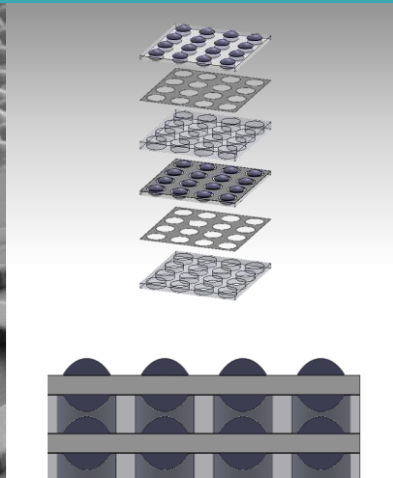

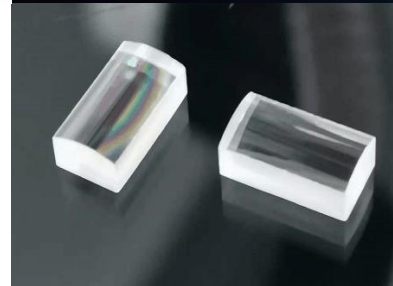

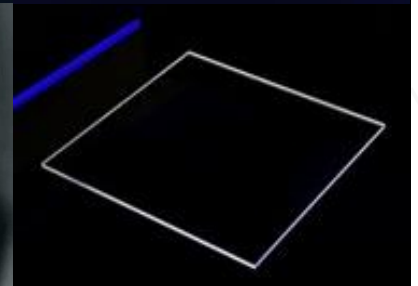

Symmetrical beam → High density line beam

Our UV-L750 System for Laser Lift-Off (LLO) was Prism Awards winner in 2018

Core Competence

Optics Manufacturing

Wafer Level Simultaneous Structuring	Wafer Level Photolithography-RIE (reactive ion etching)	Wafer-Level Optics (WLO) Precision Imprinting	Wafer-Level Stacking (WLS)	Precision Glass Molding	Cold Processing

With inorganic materials: Glass, Fused Silica, Silicon, CaF ₂		With polymer on glass		With inorganic materials: Glass, Fused Silica, Silicon, CaF ₂	
High LIDT Optical Coating: Anti-reflection, high-reflection, beam splitter, band filter, and various customization (UV, VIS, IR)					

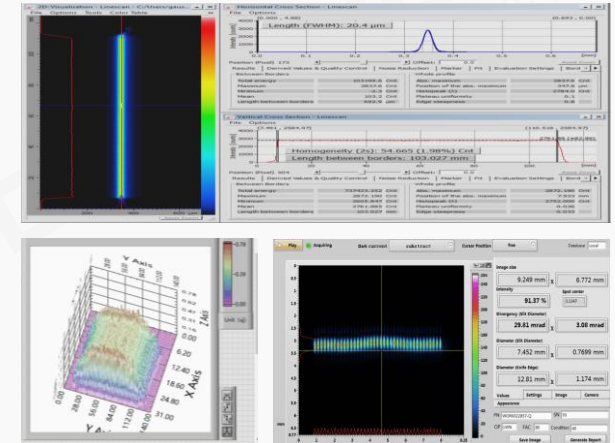

Core Competence

Test, Analysis and Diagnosis

Test and Characterization of High-Power Diode Laser

A comprehensive physical diagnostic model allows full characterization of a set of key parameters, such as:

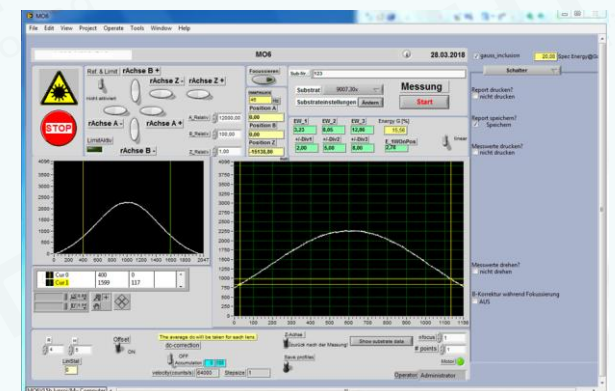

- LIV
- Spectrum
- Polarization
- Far-field / Near-field
- Spatial spectrum
- Spatial polarization
- Spatial beam profile
- Smile effect
- Lifetime

Metrology and Analysis of Optical Components

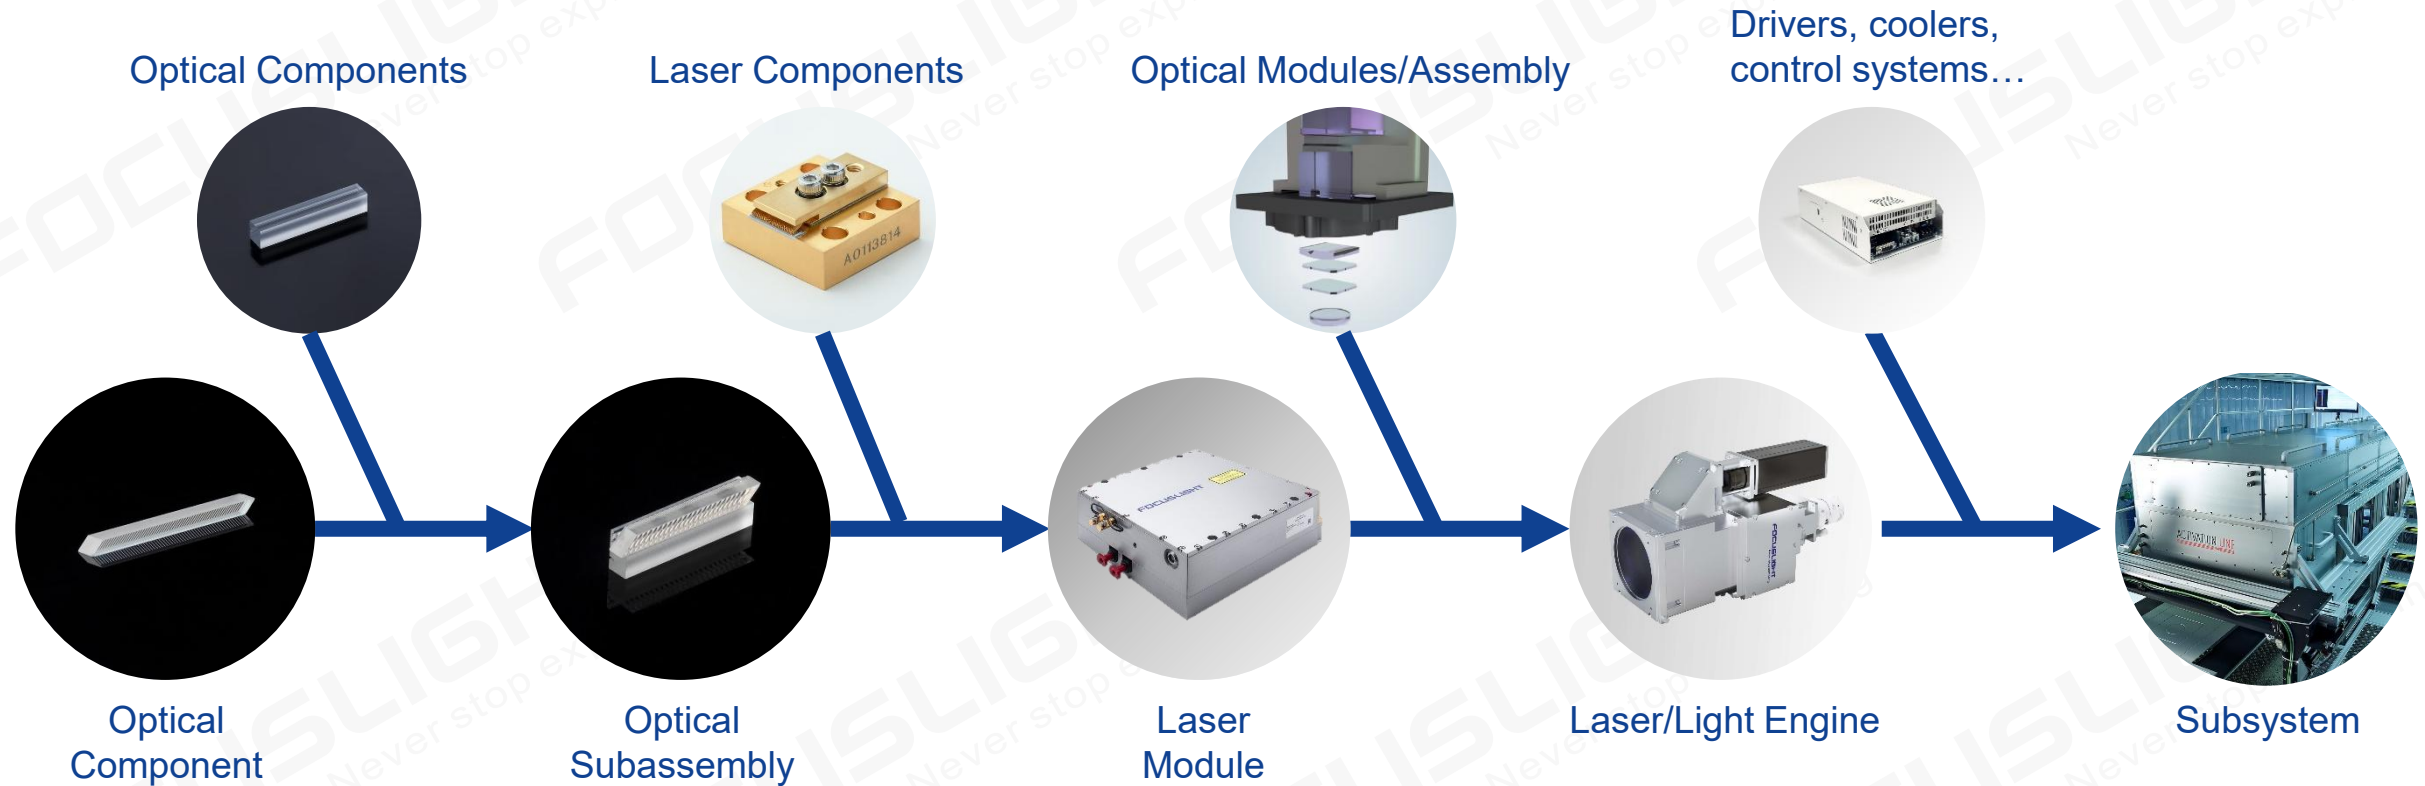

Wave optics models are used in conjunction with tactile surface measurements for precise analysis of optical functions such as:

- Focusing
- Collimation quality
- Beam uniformity

Core Competence

High Precision Optical Assembling Process and In-house Equipment: From Components to Subsystems

A Unified QM System in the Corporate Ensures Reliable and Premium Products

ISO9001 Certified Quality Management System (QMS)

ISO14001 Certified Environmental Management System (EMS)

IATF16949 Certified Automotive Quality Management System

ISO45001 Certified Occupational Health and Safety Management System

Focuslight Manufacturing System (FLMS)

Manufacturing Excellence

- Apply the **lean manufacturing practices** to all production lines, including automotive, diode laser and laser optics business
- **Absolute customer focus, zero tolerance of waste, and continuous improvement** philosophy
- **Significantly reduced** cycle time, improved manufacturing efficiency, and lowered RMA yield and manufacturing cost.
- Adopting **automation and advanced production management system**
- **SOP** of the first LiDAR transmitter project with an international automotive tier 1 customer
- IATF 16949 certified and VDA 6.3 audited

Manufacturing Capacity

Advanced Materials

10+ years high-volume manufacturing experiences + self-owned core technologies

DPC production

Etching production

Au plating

Pattern production

Cleaning

AuSn deposition

Laser marking

Dicing

AOI inspection

Advanced Materials Manufacturing Capacity > 2M pcs / month

Manufacturing Capacity

Diode Laser Components

Packaging & Assembling

Optical Assembling

Testing & Measurement

Quality Inspection

Burn-in & Lifetime Test

Diode Laser Manufacturing Capacity > 500K pcs / year
Burn-in Capacity 600K pcs / year

Manufacturing Capacity

Laser Optics Components: Wafer-Level Simultaneous Structuring Processing

Wafer Production

Quality Mapping

Coating

Laser Cutting

Auto Loading

Auto Packing

Wafer-Level Simultaneous Structuring Processing:
Manufacturing Capacity > 2K wafers / month or > 3.5M pcs lenses / month

Manufacturing Capacity

Laser Optics Components: Photolithography-Reactive-Ion-Etching Processing

Wafer Raw Materials

Photolithography

Dry Etching

Thin Film Deposition

Blade Dicing

Pick & Place

Photolithography-Reactive-Ion-Etching Processing:
Manufacturing Capacity > 300 wafers / month

Manufacturing Capacity

Laser Optics Components: Imprinting Processing

Imprinting Processing:
Manufacturing Capacity > 15K wafers / year or > 30M pcs lenses / year

Typical Applications

Optical Communication

- High precision micro-optics are at the heart of optical communication systems.
- They support efficient data transfer between key optical components.

Optical Tranceivers

WSS / OCS

FAU

CPO

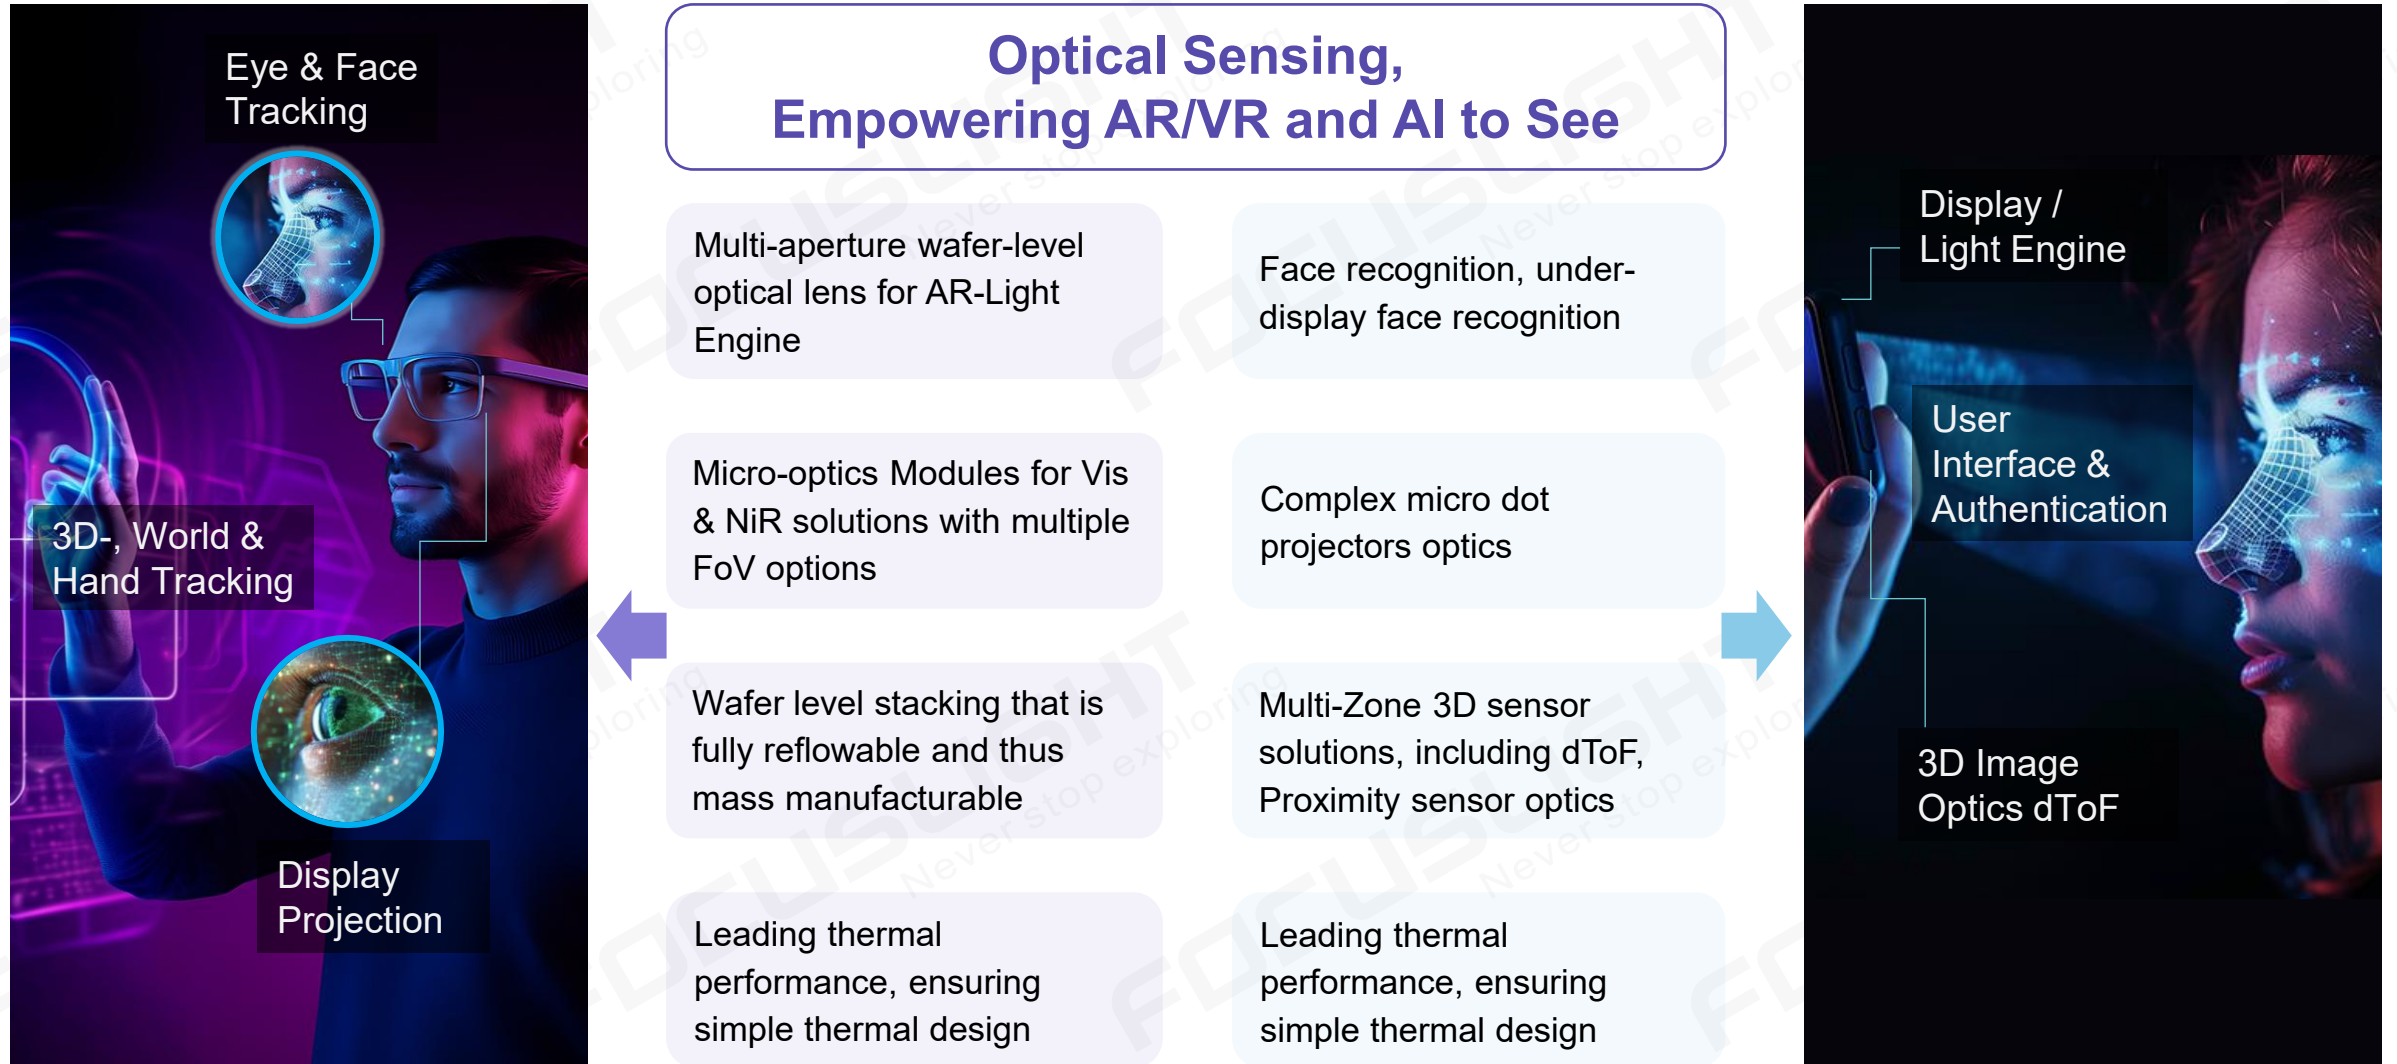

PIC

Fiber Connectors

Typical Application

Consumer Electronics

Typical Applications

Semiconductor

- Beam homogenization technology powers the illumination system – key optical component in **pan-semiconductor systems**
- > 15 years supply to the major manufacturer of semiconductor lithography tools

- Laser system solutions with high power density and different beam profiles, designed for various **laser-based wafer annealing processes** including IGBT backside annealing and SiC annealing

- Based on 976nm diode laser with adjustable beam output and >95% homogenization in energy distribution
- Ideal for **advanced chip packaging processes**, e.g. laser-assisted bonding

- Off-axis beam shaping technology powers laser surface treatment as well as surface inspection
- Typically used in **solar cell industry**

Typical Applications

Display

Solid-State Laser Lift-Off (LLO) for Flexible Displays

- Several tens of beam shapers (plasma display pixel structuring)
- Several green 100 mm line beam systems (laser lift-off)
- > 600 mm UV line beam production system (laser lift-off)

Next-gen LTPS Solid-state Laser Annealing Process

Mini and Micro LED Processing

- Laser Mass Transfer and Laser Mass Soldering
- Laser Chip Repair

Typical Applications

Automotive

LiDAR

Driver Monitoring System

Smart Headlight

Projected Lighting

AR HUD

Optical Components

Laser Transmitter /
Illumination Modules

*Focuslight does not
produce LiDAR /

Endoscopy

Sensing

Laser Surgery

Typical Applications

Industrial

Fiber Laser Pumping

- **AuSn pre-deposited ceramic substrates** – stable and reliable thanks to the high thermal conductivity and suitable thermal expansion coefficient;
- **Fast axis collimators (FAC)** – fundamental and efficient solutions for shaping the beam emitted by the pumping sources;
- **Focusing lenses** – coupling the collimated laser beam precisely into the output fiber;

Sales Network

- Worldwide established distributors
- Direct sales offices in China, Switzerland and US
- Manufacturing site in Xi'an, Dortmund, Dongguan, Haining, Shaoguan, Neuchâtel, and Singapore

Your committed and reliable long-term partner in photonics components and solutions

Diode laser light source leader and beam shaping expert with strong IP position

One-stop-shop provider of micro-optics choosing from five process technologies best matching customer needs

Global photonics foundry that convert customers' ideas and designs into their own products and solutions

Total solution, versatile customization service and field service provider

Strong RDE capability, high volume production capacity and low-cost manufacturing

Financially healthy and strong financial backing from investors for long term growth

THANK YOU
