

**FOCUSLIGHT**

Never stop exploring

# Focuslight Overview

- Founded in 2007 by Dr. Victor X. Liu, headquartered in Xi'an, China.
- A fast-growing company that develops and manufactures **high-power diode laser components and materials** (photon generation) and **laser optics** (photon control) used in various industries and applications.
- Business scope is being extended by developing and manufacturing **photonic application modules, assemblies, and sub-systems** (photonics application solutions) with a focus on automotive, pan-semiconductor, and medical & health application solutions.
- Public listed company in the Shanghai Stock Exchange (Ticker Symbol: 688167).

# Milestones

## Products

CS series released – Our very first laser

2008

Full-scale application of indium-free bonding

2010

GS series released – Ultra-light conduction-cooled diode laser: QCW 3kW = 2g

2012

Vshiny, the world's most shipped hard-solder packaged microchannel laser hair removal engine, launched

2014

UV-L750 Ultraviolet Line Laser System won Prism Award

2018

Automotive LiDAR transmitter project awarded from international Tier 1

2019

Production of micro-optics on world's largest glass wafer (300 x 300 mm<sup>2</sup>)

2020

Fast Axis Collimator (FAC) monthly shipment exceeded 1M pcs.

2021

Laser system for wafer annealing in semiconductor manufacturing processes launched

2023

Line Beam LiDAR Transmitter Module awarded nomination from European Tier 1

2024

## Technology and Development

Founding of Focuslight

2007

Entered professional medical and health market

2009

Technology breakthrough of gold-tin film preparation

2012

Establishment of Automotive BU Entered LiDAR market

2013

Xi'an HQ IATF16949 certified

2017

Successful IPO at SSE Star Market

2018

Invested in new facility in Shaoguan focused on medial and health application solutions

2019

Dongguan Base IATF16949 certified

2020

ISO9001 certified

World's first monograph on packaging of HPDL published

Acquisition of LIMO Started providing photon control and photonics application solutions

Dongguan delivery and high-volume manufacturing center officially in operation

Exclusive cooperation with world-famous device manufacturer Entered consumer medical and health market

Breakthrough using solid-state line laser in annealing process of FPDs

Brand unified globally

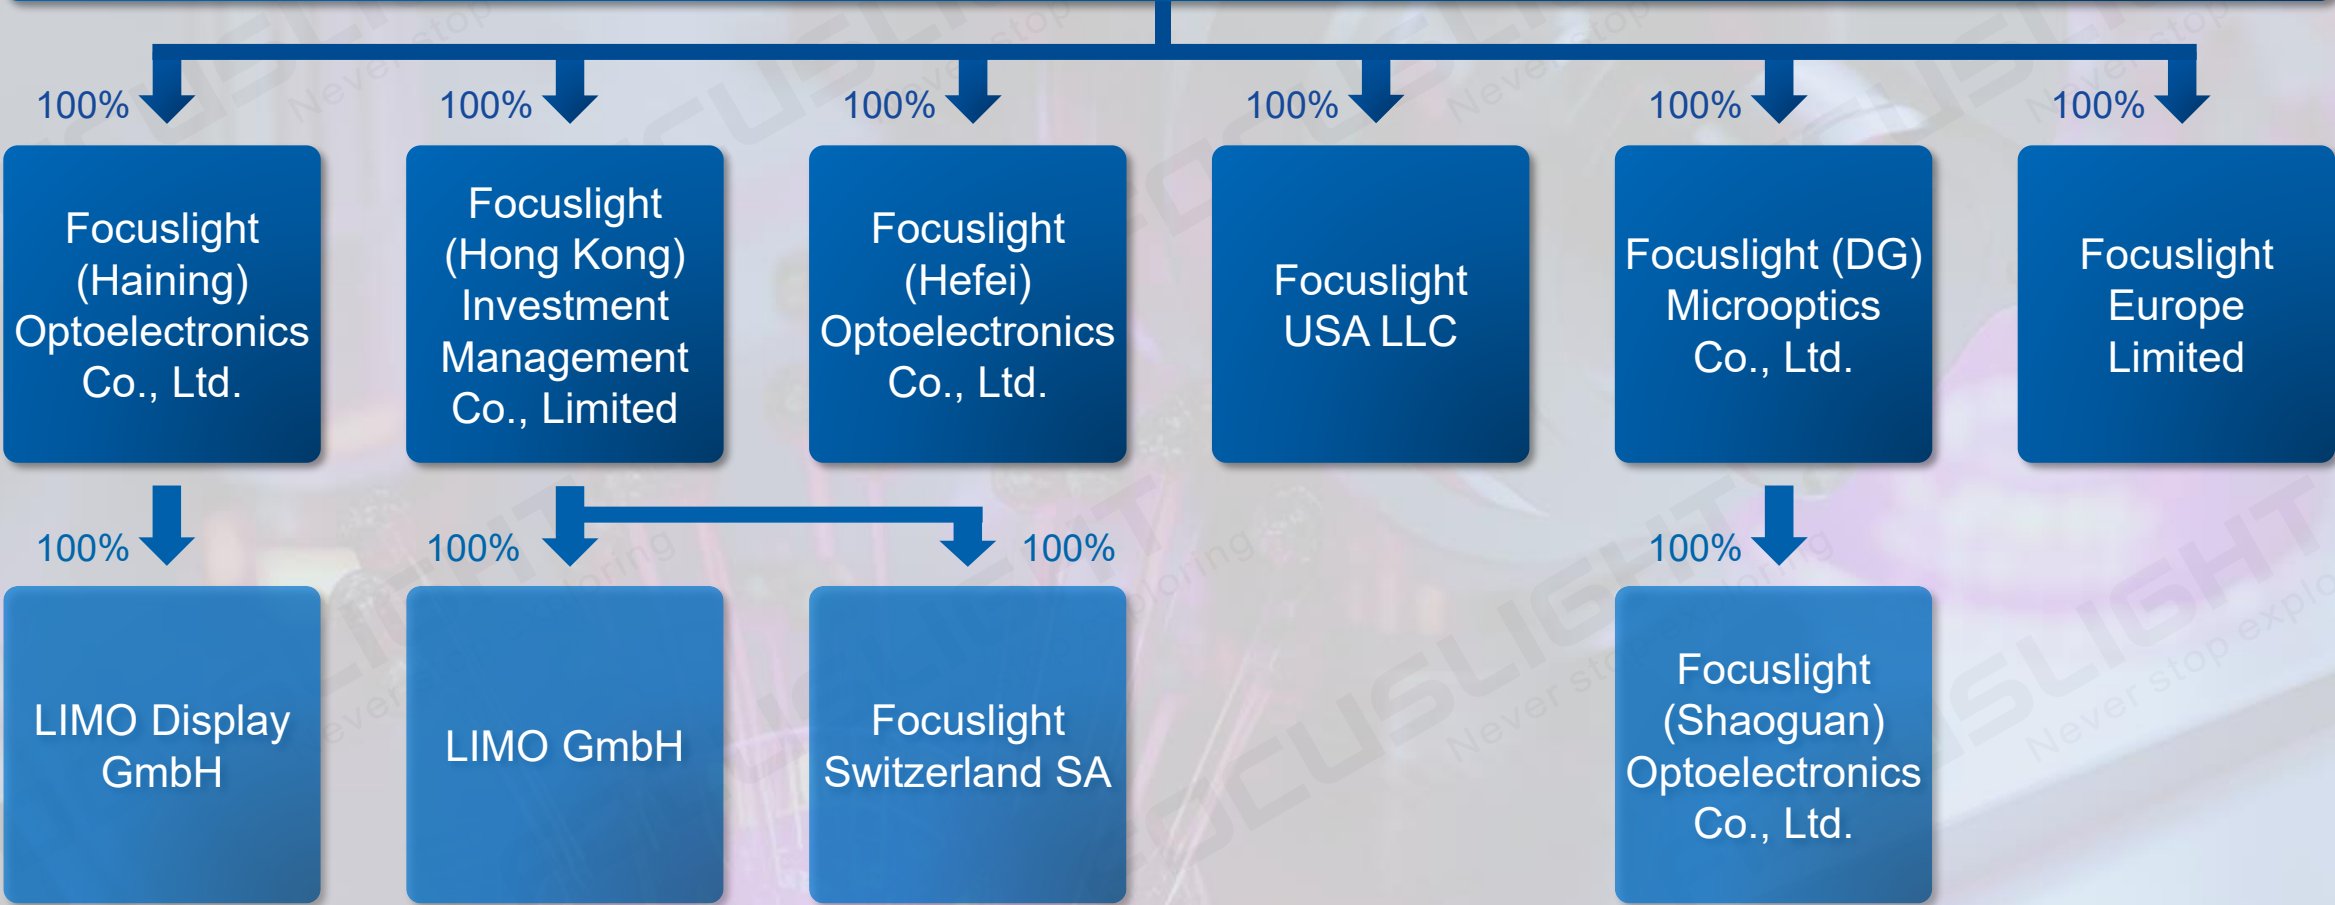

Invested in new facility in Hefei focused on pan-semiconductor application solutions

Acquisition of SUSS MicroOptics

# Corporate Management Team

## Dr. Xingsheng Liu (Victor)

Chairman,  
CEO

- Research and management experience in America (Virginia Tech, Corning, Coherent, nLight)
- 100+ publications, 300+ patents, 30+ invited papers internationally
- Committee Member of SPIE and IEEE, served or serving as chair or committee member of international conferences

CORNING

COHERENT

nLIGHT

## Dr. Chung-En Zah

CTO

- 30+ years of research experience in America (Corning, Bellcore)
- 300+ publications, 50+ patents in optoelectronics and telecommunication
- IEEE Fellow, OSA Fellow, 2x R&D 100 award winner

THORLABS

## Mr. Guowei Zhu (Gavin)

Corporate VP of Quality,  
President of Automotive BU,  
Director of Corporate R&D

- Over 20 years experience in international automotive companies
- Rich plant P&L and operations management experience
- Familiar with IATF quality management system, KPI management, team building and plant operations management by World Class Manufacturing (WCM) & Lean manufacturing

MAGNETI  
MARELLI

BorgWarner

## Ms. Yiping Ye (Alison)

Board Director,  
CFO

- Over 15 years management experience and multi-field business practices, familiar with LTC, IPD and intercultural cooperation
- In-depth understanding and rich operational experience in market development, project operation and business management

HUAWEI

Hanergy  
汉能

# Corporate Management Team

## Mr. Ye Tian

Board Director,  
Corporate VP of Global Sales,  
China Sales Director

- Over 15 years' experience in market development, product marketing and sales
- Received the certificate of CEIBS' Leadership Acceleration Program

**PHILIPS** Lighting

## Dr. Reinhard Voelkel

Chief Strategy Officer

- MSc in Physics and PhD in Natural Sciences, both at the University of Erlangen-Nürnberg
- +35 years of professional experience in the field of micro-optics, with expertise in strategic leadership, business development, and innovation

## Dr. Patrick Heissler

Chief Commercial Officer

- Master in Physics at LMU, PhD in Physics at Max Planck Institute of Quantum Optics and MBA in Innovation and Business Creation at TUM
- +11 years of professional experience in micro optics, with a focus on research, business development and technical leadership

## Ms. Xuefeng Zhang (Jennifer)

Board Secretary,  
Marketing Director

- 13 years photonics industry international business experience
- In-depth understanding and rich experience in sales, marketing and business development.

# Corporate Management Team

## Mr. Jinchao Qu

President of Diode Laser BU,  
President of Medical & Health BU

- Extensive years of product marketing and sales management experience
- Outstanding track record in previous roles as Asia Sales Director and Head of the Application Systems Special Task Force

**ALSTOM SIEMENS**

## Mr. Dirk Walter Bogs

President of Laser Optics BU

- Over 25 years' experience in ultra-precision tooling, optic manufacturing, engineering & project management
- More than 20 years' experience in operational management
- Very deep knowledge of technology development and optimization
- Experienced and familiar in international cooperation

**LIMO**  
A Focuslight Company

## Mr. Yong Tian (York)

VP of Laser Optics BU

- 20+ years of operation & R&D management
- Very deep knowledge with organic optical materials and optical coating technology, published SCI articles and owns patented technologies
- Experienced in Lean Manufacturing & Industry 4.0

**IBM ZEISS**

## Mr. Yong Li (Leon)

VP of Automotive BU

- Outstanding leadership in previous roles: Overseas Sales Manager, Product Line Manager, and Head of the Automotive LiDAR Strategic Project
- Led the team to the successful automotive-grade SOP of the world's first all-solid-state LiDAR transmitter module
- Winner of Laser Focus World 2021 Rising Stars Award
- Experienced in international cooperation and strategic planning

**Sumavision HUAWEI**

## Mr. Ye Dai (Robert)

President of Pan-Semiconductor Solutions BU

- Excellent track record in worldwide sales & product line management leadership roles
- 20+ patents granted

**IVO APPLIED MATERIALS**

# Products and Businesses

**Photon  
Generation**

**Photon  
Control**

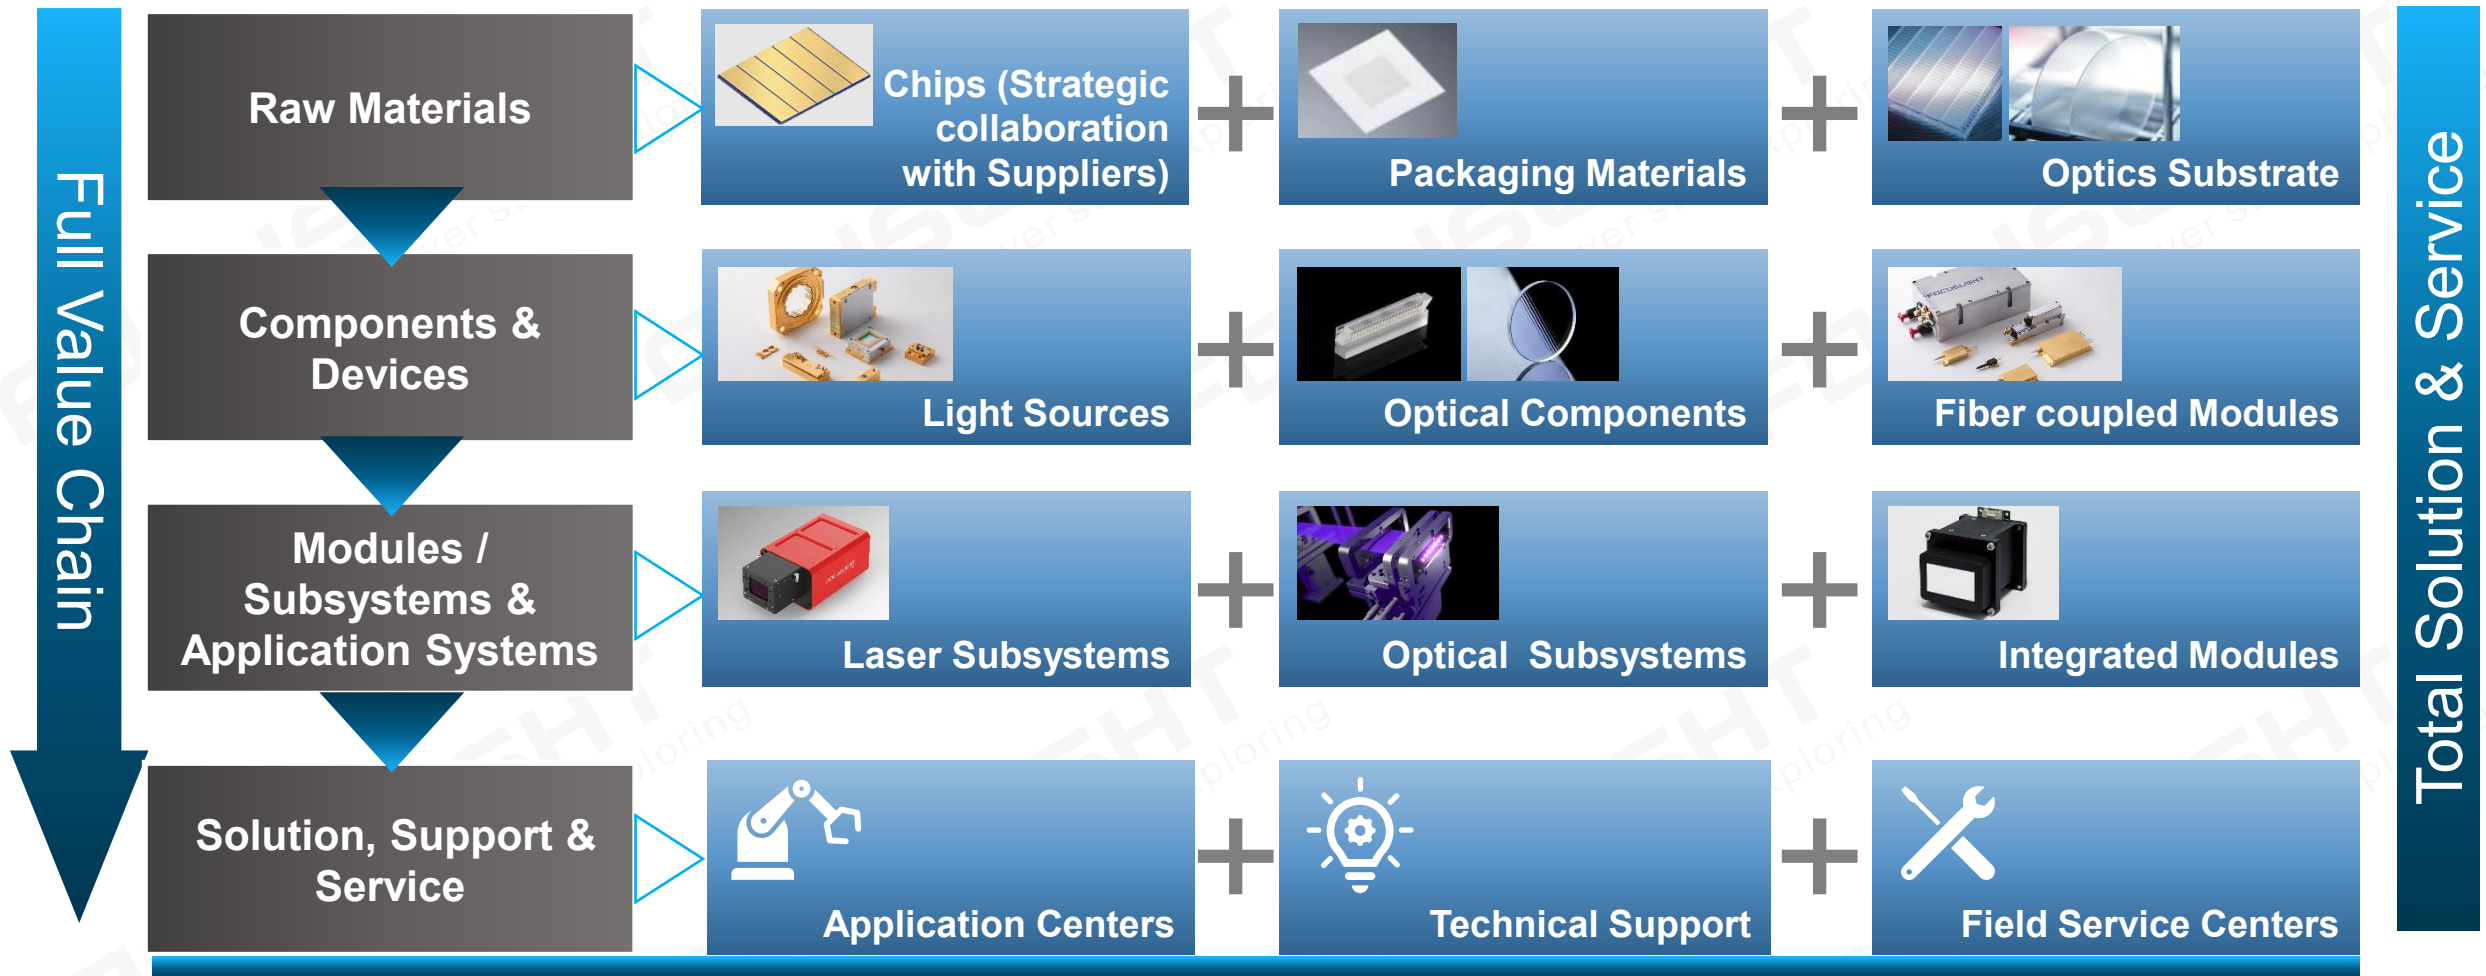

**Photonics  
Application  
Solutions**

**Be the global trusted photonics solution provider  
through innovation, manufacturing excellence and fast response**

# Value Proposition

**Industry Leader**  
**Strong Financial Backing**  
**Healthy Stable Company, Invest in the Future**

# Value Proposition

- ◆ **Quality First** philosophy

- ◆ Strong **IP position**

- ◆ Customer **commitment** and willing to **invest**

- ◆ Advanced **technical strengths** and **“know-how”**

- ◆ Extensive **engineering** capability and high-volume **manufacturing**

- ◆ **Low-cost production** ensured by high yield, low RMA & high productivity

- ◆ Comprehensive **quality assurance system including IATF 16949 Automotive QMS standards**

- ◆ **Full range of product portfolio** from components to modules or subassembly

- ◆ Application support and **total solutions**

- ◆ Versatile **customization service**

# Vision

**FOCUSLIGHT**  
Never stop exploring

**To unlock the potential  
of photonics to enhance  
and enrich people's life**

# Company Organization

**Focuslight

**Unified Corporate Function +  
Shared Service Center**

\* BU: Business Unit

# Products – Diode Laser Components and Materials

## Advanced Materials

- AuSn Pre-Deposited AlN Ceramic Substrates
- AuSn Pre-Deposited CuW Substrates
- Thin Film Metallization Service

## Active Devices

- Single Emitter Components
- Single Bar Components
- Micro-Channel Cooled Stacks
- Conduction Cooled Stacks
- Pumped Modules

## Fiber Coupled Modules & Passive Components

- Emitter-Based FCM
- Bar-Based FCM
- Patch Cords

## Professional Medical Application Components

- Laser Hair Removal Modules
- Medical Lasers

- Focuslight offers our customers a variety of products.
- Focuslight is committed to providing our customers with reliable, high-performance laser products and superior services

# Products – Laser Optics Components

**Etched Micro-Optics (EMO)**

**Single (A)cylindrical Lenses (SCL)**

**Imprinted Micro-Optics**

**Microlens Arrays (MLA)**

**High-Damage-Threshold Coating and Optics (HCO)**

**Precision Molded Optics (PMO)**

# Products – Automotive Application Solutions

## Flash LiDAR Transmitter Modules

**AL01** (Mass Production)

Auto-grade DPSSL Flash Tx

**AT02 / AT02 Pro**  
(Engineering Sample)

Auto-grade VCSEL module for DMS (Driver Monitoring System)

**AX02 Pro** (Engineering Sample)

VCSEL Flash Tx 700W

**LE02 Pro**  
(Engineering Sample)

905nm 700W EEL Line Beam Tx

**LX02** (Engineering Sample)

VCSEL Line Tx 1000W

## Optical Components and Assemblies for Automotive

EEL FAC Collimators

Auto-grade Diffusers and Homogenizers

Optics for Automotive Projection and Lighting

Customized Optical Assemblies

# Products – Pan-Semiconductor Application Solutions

IC Wafer Annealing System

Variable Beam Laser System

Solid-State Laser Lift-Off (LLO) System

IR Line System

Industrial Laser Modules

Solid-State Laser Annealing (SLA) System

# Products – Medical and Health Application Solutions

## Professional Medical & Health Modules

Laser Hair Removal Module

Laser Body Sculpting Module

## Consumer Medical and Health Modules

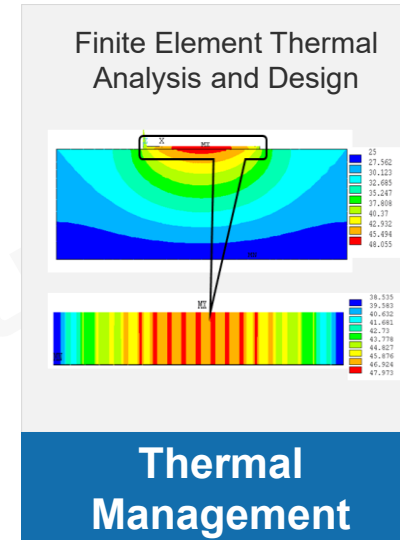

Home-use Skin Rejuvenation Module

Home-use Laser Hair Removal Module

# Core Competence – Diode Laser

# Core Competence – Beam Shaping

## Micro Optics Design and Simulation

Acylindrical free-form micro-optics / arrays / diffusers / DOE splitters / beam shaping systems

## Homogenization

Uniform and homogeneous illumination in any desired shape

## Beam Transformation

Asymmetrical → Symmetrical beam

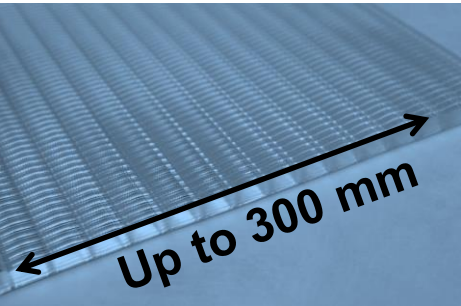

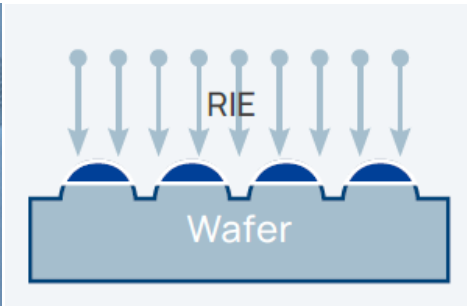

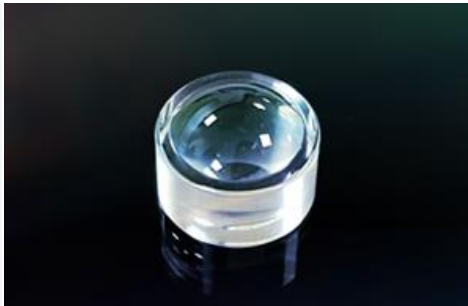

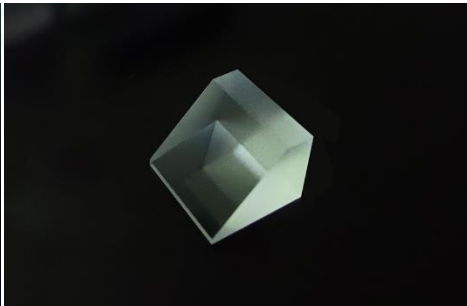

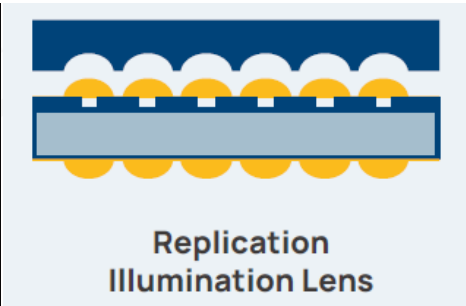

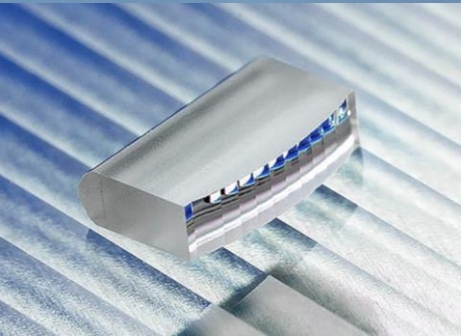

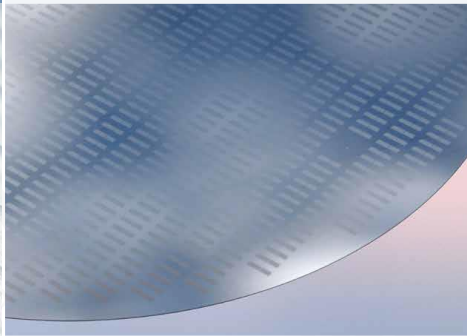

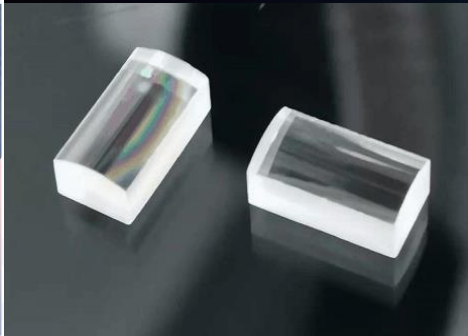

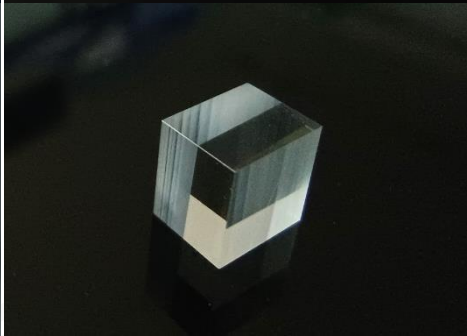

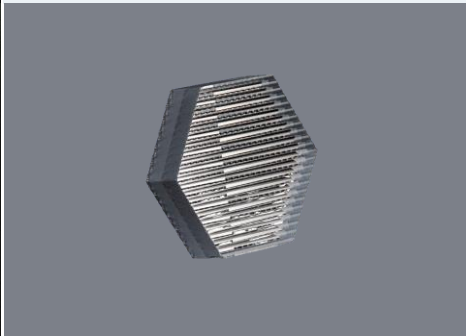

Symmetrical beam → High density line beam

**The right photon at the right place and time!**

# Core Competence – Optics Manufacturing

Wafer Level Simultaneous Structuring	Wafer Level Photolithography-RIE (reactive ion etching)	Precision Glass Molding	Cold Processing	Nanoimprint
 <p>Up to 300 mm</p>	 <p>RIE Wafer</p>			 <p>Replication Illumination Lens</p>
   				
<p>With inorganic materials: Glass, Fused Silica, Silicon, CaF<sub>2</sub></p>				<p>With polymer on glass</p>
<p><b>High LIDT Optical Coating:</b> Anti-reflection, high-reflection, beam splitter, band filter, and various customization (UV, VIS, IR)</p>				

# Core Competence – Automotive

Q-switch DPSS Laser Transmitter Design

Advanced ROE Beam Shaping Optics Design

Design and Simulation

High Power Diode Laser Design and Assembling

Automotive Grade Laser Design and Qualification

Optical Assembly Automation

Laser Testing and Characterization

Laser Assembly Automation

# A Unified QM System in the Corporate Ensures Reliable and Premium Products

ISO9001 Certified Quality Management System (QMS)

ISO14001 Certified Environmental Management System (EMS)

IATF16949 Certified Automotive Quality Management System

ISO45001 Certified Occupational Health and Safety Management System

Failure Mode and Effect Analysis (FMEA)

Statistical Process Control (SPC)

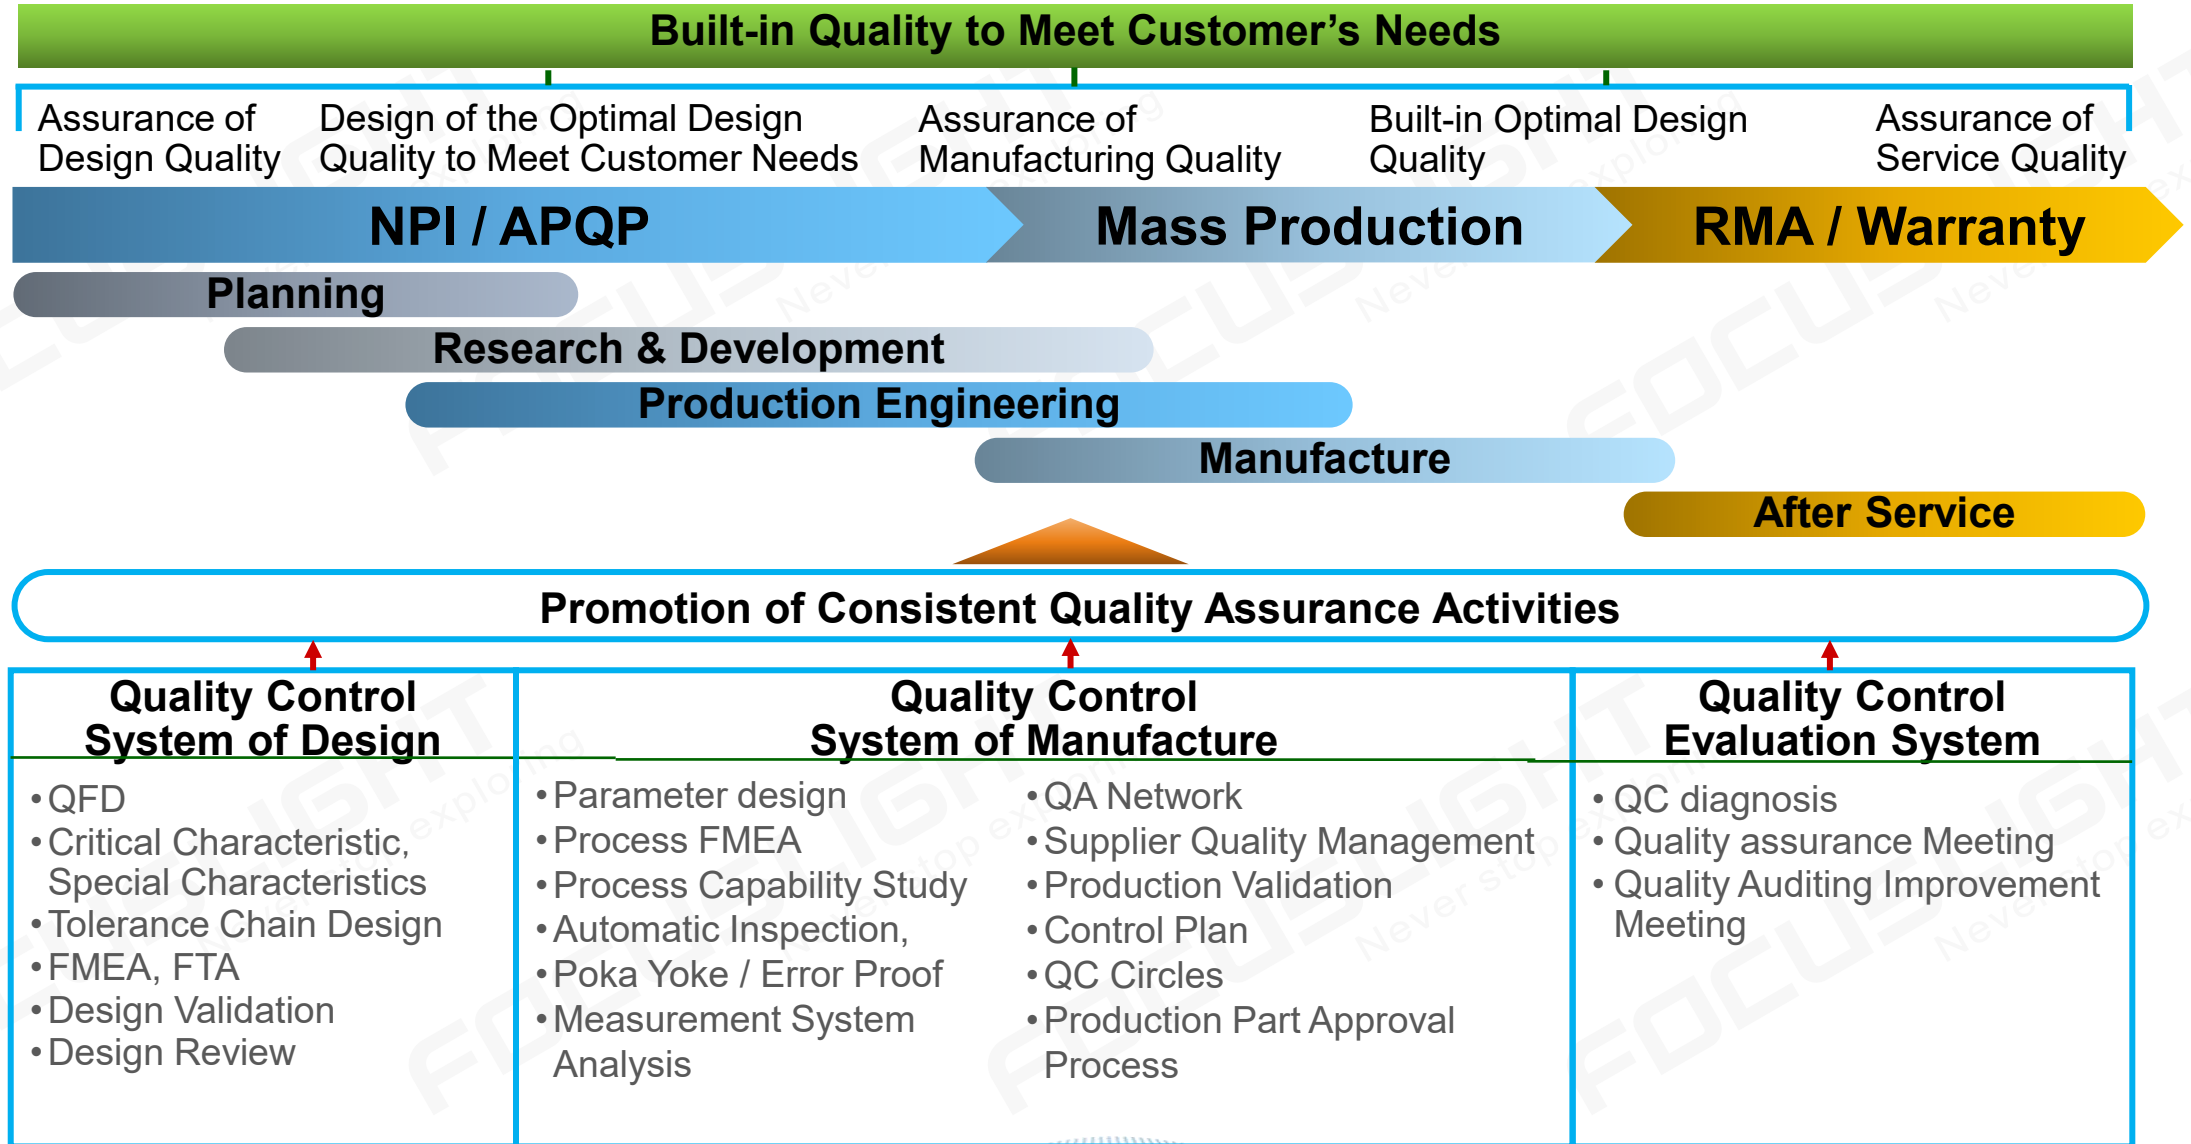

Production Traceability Database

Control Plan (CP)

# Quality Assurance System

# Focuslight Manufacturing System (FLMS)

Focuslight Manufacturing System (FLMS)

# Manufacturing Excellence

- Apply the **lean manufacturing practices** to all production lines, including automotive, diode laser ones and laser optics business
- **Absolute customer focus, zero tolerance of waste, and continuous improvement** philosophy
- **Significantly reduced** cycle time, improved manufacturing efficiency, and lowered RMA yield and manufacturing cost.
- Adopting **automation and advanced production management system**
- **SOP** of the first LiDAR transmitter project with an international automotive tier 1 customer
- IATF 16949 certified and VDA 6.3 audited

# Manufacturing Capacity – Advanced Materials

10+ years high-volume manufacturing experiences + self-owned core technologies

**Monthly Advanced Materials Manufacturing Capacity > 2M pcs**

# Manufacturing Capacity – Diode Laser Components

Packaging & Assembling

Optical Assembling

Testing & Measurement

Quality Inspection

Burn-in & Lifetime Test

**Yearly Diode Laser Manufacturing Capacity > 500K pcs**  
**Burn-in Capacity 600K pcs/year**

# Manufacturing Capacity – Laser Optics Components

Wafer Production

Quality Mapping

Coating

Laser Cutting

Auto Loading

Auto Packing

**Wafer-Level Simultaneous Structuring Processing:  
Monthly Manufacturing Capacity > 2K wafers or > 3.5M pcs lenses**

# Manufacturing Capacity – Laser Optics Components

Wafer Raw Materials

Photolithography

Dry Etching

Thin Film Deposition

Blade Dicing

Pick & Place

**Photolithography-Reactive-Ion-Etching Processing:  
Monthly Manufacturing Capacity > 300 wafers**

# Global Facility/Capacity Expansion - China

**Focuslight HQ, Xi'an, China**  
13787m<sup>2</sup> facility with 3710m<sup>2</sup> clean room space for **diode laser components & automotive LiDAR Tx module** production lines

**Hefei, China**  
A new facility of ~25,000 m<sup>2</sup> focused on **pan-semiconductor application solutions** will be constructed.

**Haining, China**  
**UV-LLO and UV-SLA systems** being fully deliverable from here

**Shaoguan, China**  
A new facility of ~15,000 m<sup>2</sup> focused on **medical and health application solutions** is being constructed

**Dongguan, China**  
Total 65,000m<sup>2</sup> of building to be constructed. #1 and #3 buildings with ~6000 m<sup>2</sup> of clean room space has started operating in September 2022. Monthly **micro-optics** manufacturing capacity > 3 million pcs

# Global Facility/Capacity Expansion – Europe & USA

## Dortmund, Germany

13000m<sup>2</sup> facility with 2870m<sup>2</sup> production area  
Extension of **high-volume micro-optics wafer** production line (FAC /SAC) with manufacturing space increased by 150%  
Expansion of UV laboratory finished

## Neuchâtel, Switzerland

1,150m<sup>2</sup> of cleanroom area in two facilities – specially for **wafer-level production of industrial and automotive optics**

**EMEA Sales Office**  
being an important part of our global presence

**Americas Sales Office**  
being an important part of our global presence

## Silicon Valley, USA

The **new innovation lab** has been set up with our Chief Scientist working here

# Applications – Fiber Laser Pumping

- **AuSn pre-deposited ceramic substrates** – stable and reliable thanks to the high thermal conductivity and suitable thermal expansion coefficient;
- **Fast axis collimators (FAC)** – fundamental and efficient solutions for shaping the beam emitted by the pumping sources;
- **Reflection mirrors** – highly accurate and efficient in reflection, reducing optical signal losses;
- **Focusing lenses** – coupling the collimated laser beam precisely into the output fiber;

# Applications – Solid State Laser Pumping

**Diode Laser:**    ↓ Footprint    ↑ Reliability    ↑ Efficiency    ↓ Cost

# Applications – Blue Laser

## AuSn Pre-Deposited Substrates

For optical cooling of the blue diode laser

## Beam-Shaping Optics

For highly efficient use of the photons

## Laser Engraving Modules

With 20W output (typ.) in 10 x 5 x 5 cm dimensions

## Lighting Modules

With 8,000 lm output (typ.) in 7.5 x 6.5 x 4.5 cm dimensions

# Application – Semiconductor

- Beam homogenization technology powers **lithography** illumination system – key optical component in steppers
- > 15 years supply to the major manufacturer of semiconductor lithography tools
- Laser system solutions with high power density and different beam profiles, designed for various **laser-based wafer annealing processes** including IGBT backside annealing and SiC annealing
- Off-axis beam shaping technology powers laser surface treatment as well as surface inspection
- Typically used in **solar cell industry**
- Beam shaping on UV solid-state laser, 30000:1 aspect ratio is achievable
- Up to 1000 mm long UV Line generation system enabling **OLED laser lift-off** process
- Next-gen LTPS **solid-state laser annealing** process.
- Based on 976nm diode laser with adjustable beam output and >97% homogenization in energy distribution
- Ideal for **Mini / Micro LED manufacturing processing**, e.g. laser mass transfer, laser mass soldering, and laser chip repair

# Applications – Display

- Several tens of beam shapers (plasma display pixel structuring)
- Several green 100 mm line beam systems (laser lift-off)
- > 600 mm UV line beam production system (laser lift-off)

This graphic shows the laser lift off process.

## Pre-production stage:

- Laser-induced thermal imaging process (LITI) with IR diode lasers
- Thermal optimization of TCO layers with Focuslight Line Beam Technology
- Low-temperature polysilicon annealing (LTPS) for AMOLED and high-resolution LCDs

# Applications – Welding

- Laser transmission welding of thermoplastics in the wavelength range 808nm-980nm
- Simultaneous welding of thermoplastics with Focuslight Line Beam Technology
- Cutting, welding and soldering of metals
- Metal surface finishing with Focuslight Line Beam Technology
- Corrosion- and abrasion-resistant hard metal coatings on steel

# Applications – Coating

- vRTP (very Rapid Thermal Processing) of functional coatings with Focuslight Line Beam Technology:
- Large-scale, energy-efficient and precisely controlled processing
- ... for a large variety of substrate materials (metal, glass, polymer, paper etc.)
- ... for a large variety of processes (annealing, crystallization, drying, sintering etc.)
- ... for a large variety of coating materials (semiconductors, metals, TCOs etc.)

# Applications – Medical and Health

- **Direct diode laser solutions, fiber coupled laser solutions, and optical components** for medical and aesthetic uses including laser hair removal, laser body sculpting, dental, surgery, laser fluorescein angiography (LFA), etc.
- Strong positioning in **professional hair removal** industry worldwide
- Fast growth in **consumer health solution** and **body sculpting** laser modules, massive production project awarded from world-class home-use aesthetic equipment manufacturer
- Imprinted polymer lens, diffractive elements (DOEs), square lenses arrays for various applications such as **waveform sensing, 3D metrology optics (odontology), health monitoring**
- **Nipkow discs** for **confocal microscopy**

# Applications – Optical Communication

## Refractive Optics

- Focusing / collimating microlens
- Prism integrated MLA
- Microlens arrays
- Si refractive microlens arrays

## *Transceiver (TROSA, ROSA, TOSA \*)*

*Fiber couplers for PICs*

*Co-packaged optics*

*Wavelength selective switches*

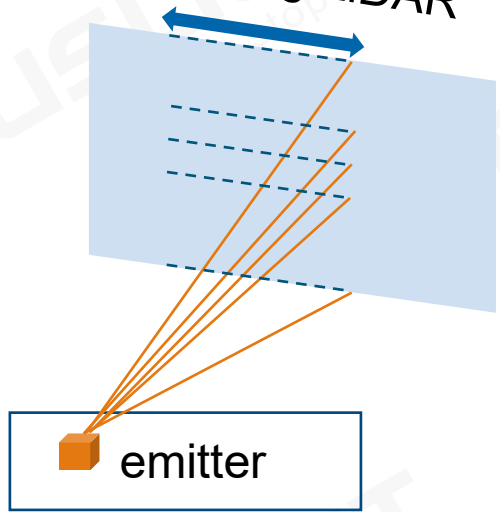

*Extended beam connectors*

\* TROSA = Transmit & Receive Optical Sub Assembly, ROSA = Receiver Optical Sub Assembly, TOSA = Transmitter Optical Sub Assembly

# Application – Automotive LiDAR

Mechanical 360°  
spinning LiDAR

Hybrid Solid State  
Line beam 1D steering  
LiDAR

Pure Solid State  
Area Beam Flash LiDAR

Automotive-grade optics  
and subassembly

Line Beam Transmitter Modules

Flash Transmitter Modules

# Application – Automotive Lighting

## Refractive and Diffractive Optics

- Microlens arrays
- Diffractive elements
- Spatial filter arrays
- Hexagonal / round / cylindrical / square lens arrays

## Headlamps

*Exterior projections*

*Interior projections*

*LiDAR Receiver*

*LiDAR Transmitter*

# Applications – Illumination and Machine Vision

- **Diode laser sources** with different power and wavelength ranges, **Fiber coupling modules (FCM)** products and **micro-optic components** for the **illumination** application.
- **Homogenizers, diffusers, and beam shaper modules** can disperse laser light in one direction up to a full illumination angle ranging from a few mrad to over 160°, which illuminates the target area precisely and uniformly (95%), providing high uniformity and high-resolution illumination system for **CCD/CMOS imaging and surface inspection system**, for instance, **for rail transit and bridges**, and in various **industrial application fields**.

# Sales Network

- Worldwide established distributors
- Direct sales offices in China, Switzerland and US
- Manufacturing site in Xi'an, Dortmund, Dongguan, Haining, and Neuchâtel

# Summary

- Diode laser light source leader and beam shaping expert
- One stop source from active devices to passive optics, from components to modules to application subassemblies
- Total solution, versatile customization service and field service provider
- Strong RDE capability, high volume production capacity and low-cost manufacturing
- Strong IP position in diode lasers and laser optics
- Financially healthy and strong financial backing from investors for long term growth

- **Your committed and reliable long-term partner in diode lasers and laser optics**

**THANK YOU**

**FOCUSLIGHT**  
Never stop exploring
